## Headspace Gauge Sets In Popular Rifle & Pistol Calibers

CLYMER GO & NO-GO HEADSPACE GAUGE SETS The Clymer Go & No-Go Headspace Gauge Sets are essential tools for gunsmiths and firearm enthusiasts, designed to accurately measure and ensure proper chamber headspace in rifles. These gauges verify that a firearm's chamber meets the Sporting Arms and Ammunition Manufacturers' Institute (SAAMI) specifications, ensuring safe and reliable operation. Key Features: Precision Measurement: Each gauge is precision-machined from high-quality steel to exact SAAMI specifications, providing accurate assessments of chamber dimensions. Comprehensive Sets: Each set includes one "Go" gauge and one "No-Go" gauge for a specific caliber, allowing for thorough evaluation of a firearm's chamber size. Durable Storage: The gauges come in a handy, durable plastic carrying case, offering protection and easy organization. Specifications: Material: Machined steel Standards: Manufactured to SAAMI specifications Included Gauges: "Go" Gauge: Confirms the minimum chamber size "No-Go" Gauge: Identifies excessive chamber size Caliber Options: Available in various calibers to suit different firearms Customer Insights: Our customers consistently praise the Clymer Go & No-Go Headspace Gauge Sets for their precision and reliability. Many appreciate the inclusion of both gauges in a single set, simplifying the process of checking headspace. The durable plastic carrying case is also highlighted as a convenient feature for storage and transport. Incorporating the Clymer Go & No-Go Headspace Gauge Sets into your firearm maintenance routine ensures that your rifles operate within safe headspace parameters, enhancing both safety and performance.

# GO/NOGO Gauge Sets Clymer 3006 Springfield Headspace Gauge Kit Steel Safety Instruction Guide

## Introduction

Thank you for choosing the GO/NOGO Gauge Sets Clymer 3006 Springfield Headspace Gauge Kit Steel. This guide provides essential safety instructions and usage information to ensure the safe and effective use of your gauge kit. Please read this guide carefully before using the product.

## General Safety Guidelines

- Ensure that the gauge kit is used only by individuals who are familiar with firearms and headspace measurement.
- Always follow the manufacturer's instructions when using the gauges.
- Inspect the gauges for any damage before use. Do not use damaged gauges.
- Keep the gauge kit out of reach of children and unauthorized persons.
- Always store the gauge kit in its carrying case when not in use to prevent damage and maintain safety.
- Report any unsafe conditions or incidents to the relevant authorities.

## Specific Safety Precautions for Use

- Use the gauges only for the intended purpose of checking headspace in firearms.
- Do not exceed the recommended specifications provided by the manufacturer.
- Ensure that the firearm is unloaded before using the gauges.
- Always wear appropriate safety gear, such as safety glasses, when handling firearms.
- Avoid using the gauges in wet or damp conditions to prevent rust and corrosion.
- Keep hands dry and free of oils when handling the gauges to maintain a secure grip.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that the firearm is completely unloaded.
- Gather all necessary tools and the gauge kit.

### 2. Using the Go Gauge:

- Insert the Go gauge into the chamber of the firearm.
- The gauge should fit snugly without excessive force. If it does not fit, consult a qualified gunsmith.

### 3. Using the NoGo Gauge:

- Insert the NoGo gauge into the chamber after checking with the Go gauge.
- The NoGo gauge should not fit into the chamber. If it does, it indicates that the headspace is too long and the firearm should not be used until corrected.

### 4. PostUsage:

- After checking the headspace, carefully remove the gauges from the chamber.
- Clean the gauges with a soft cloth to remove any debris or moisture.
- Store the gauges in the provided carrying case.

## Disposal Instructions

- Dispose of any damaged or unusable gauges in accordance with local regulations.
- Do not dispose of the gauge kit in regular household waste.
- Consider recycling options for metal components if available in your area.

## Contact Information for Further Support

For any inquiries regarding safety or product information, please refer to the manufacturer's contact details provided with the product packaging or visit the manufacturer's website.

## Conclusion

By following these safety instructions, you can ensure the effective and safe use of the GO/NOGO Gauge Sets Clymer 3006 Springfield Headspace Gauge Kit Steel. Always prioritize safety and consult professionals if you have any doubts about the use of this product. Thank you for your attention to safety and responsible usage.
