## Headspace Gauge Sets In Popular Rifle & Pistol Calibers

CLYMER GO & NO-GO HEADSPACE GAUGE SETS The Clymer Go & No-Go Headspace Gauge Sets are essential tools for gunsmiths and firearm enthusiasts, designed to accurately measure and ensure proper chamber headspace in rifles. These gauges verify that a firearm's chamber meets the Sporting Arms and Ammunition Manufacturers' Institute (SAAMI) specifications, ensuring safe and reliable operation. Key Features: Precision Measurement: Each gauge is precision-machined from high-quality steel to exact SAAMI specifications, providing accurate assessments of chamber dimensions. Comprehensive Sets: Each set includes one "Go" gauge and one "No-Go" gauge for a specific caliber, allowing for thorough evaluation of a firearm's chamber size. Durable Storage: The gauges come in a handy, durable plastic carrying case, offering protection and easy organization. Specifications: Material: Machined steel Standards: Manufactured to SAAMI specifications Included Gauges: "Go" Gauge: Confirms the minimum chamber size "No-Go" Gauge: Identifies excessive chamber size Caliber Options: Available in various calibers to suit different firearms Customer Insights: Our customers consistently praise the Clymer Go & No-Go Headspace Gauge Sets for their precision and reliability. Many appreciate the inclusion of both gauges in a single set, simplifying the process of checking headspace. The durable plastic carrying case is also highlighted as a convenient feature for storage and transport. Incorporating the Clymer Go & No-Go Headspace Gauge Sets into your firearm maintenance routine ensures that your rifles operate within safe headspace parameters, enhancing both safety and performance.

## Attributes

- Name: [CLYMER 12 GAUGE HEADSPACE GAUGE KIT STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184000048
- Mfr. No.: GONG12
- Cartridge: 12 Gauge
- Colour: Steel
- Height: 0.788"
- Length: 2.52"
- Material: Steel
- Model Number: 12 Gauge
- Style: Gauge Kit
- Weight: 0.4 lbs
- Width: 0.788"
- Delivery weight: 0.136kg
- Shipping height: 28mm
- Shipping width: 30mm
- Shipping length: 66mm

# GO/NOGO GAUGE SETS CLYMER 12 GAUGE HEADSPACE GAUGE KIT STEEL Safety Instruction Guide

## Introduction

Thank you for choosing the CLYMER 12 Gauge Headspace Gauge Kit. This product is designed to help you accurately check chamber length to ensure it meets SAAMI specifications. Proper use of this gauge kit is essential for maintaining a safe and effective firearm. Please read this safety instruction guide carefully before using the product.

## General Safety Guidelines

- Always handle firearms and related tools with care and respect.
- Ensure that the gauge kit is used in a safe environment, free from distractions.
- Keep the gauge kit out of reach of children and unauthorized users.
- Always wear appropriate safety gear, including eye protection, when using firearms.
- Regularly check for any signs of wear or damage to the gauges before each use.
- Report any unsafe products or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Ensure the firearm is unloaded and pointed in a safe direction before using the gauges.
- Use the Go gauge first to check that the chamber length is within specifications.
- If the Go gauge fits, proceed to check with the NoGo gauge to confirm the chamber does not exceed the maximum length.
- Do not attempt to chamber a barrel if the NoGo gauge fits; this indicates the chamber is too long and could pose safety risks.
- Store the gauge kit in its durable plastic carrying case when not in use to protect it from damage.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is completely unloaded.
- Gather all necessary tools and equipment in a welllit workspace.

### 2. Using the Go Gauge:

- Insert the Go gauge into the chamber of the firearm.
- The gauge should fit snugly without excessive force.
- If the Go gauge fits, proceed to the next step.

### 3. Using the NoGo Gauge:

- Remove the Go gauge and insert the NoGo gauge into the chamber.
- The NoGo gauge should not fit; if it does, the chamber is too long.
- If the NoGo gauge fits, do not use the firearm until the chamber is corrected.

### 4. PostUse:

- Clean the gauges after use to remove any debris or contaminants.

- Store the gauge kit in its carrying case to prevent damage.

## **Disposal Instructions**

- Dispose of the gauge kit responsibly in accordance with local regulations.
- Do not dispose of the gauge kit in regular household waste.
- If the gauges are damaged or worn beyond use, contact the manufacturer for proper disposal instructions.

## **Contact Information for Further Support**

For safety inquiries or concerns regarding this product, please reach out to the manufacturer. Always ensure you have the latest information and updates regarding safety and product recalls.

Thank you for taking the time to read this safety instruction guide. Your safety and the safety of others is our top priority. Always adhere to these guidelines when using the CLYMER 12 Gauge Headspace Gauge Kit.
