## Headspace Gauge Sets In Popular Rifle & Pistol Calibers

CLYMER GO & NO-GO HEADSPACE GAUGE SETS The Clymer Go & No-Go Headspace Gauge Sets are essential tools for gunsmiths and firearm enthusiasts, designed to accurately measure and ensure proper chamber headspace in rifles. These gauges verify that a firearm's chamber meets the Sporting Arms and Ammunition Manufacturers' Institute (SAAMI) specifications, ensuring safe and reliable operation. Key Features: Precision Measurement: Each gauge is precision-machined from high-quality steel to exact SAAMI specifications, providing accurate assessments of chamber dimensions. Comprehensive Sets: Each set includes one "Go" gauge and one "No-Go" gauge for a specific caliber, allowing for thorough evaluation of a firearm's chamber size. Durable Storage: The gauges come in a handy, durable plastic carrying case, offering protection and easy organization. Specifications: Material: Machined steel Standards: Manufactured to SAAMI specifications Included Gauges: "Go" Gauge: Confirms the minimum chamber size "No-Go" Gauge: Identifies excessive chamber size Caliber Options: Available in various calibers to suit different firearms Customer Insights: Our customers consistently praise the Clymer Go & No-Go Headspace Gauge Sets for their precision and reliability. Many appreciate the inclusion of both gauges in a single set, simplifying the process of checking headspace. The durable plastic carrying case is also highlighted as a convenient feature for storage and transport. Incorporating the Clymer Go & No-Go Headspace Gauge Sets into your firearm maintenance routine ensures that your rifles operate within safe headspace parameters, enhancing both safety and performance.

## Attributes

- Name: [CLYMER 22 LONG RIFLE HEADSPACE GAUGE KIT STEEL](#)

# GO/NOGO Gauge Sets Clymer 22 Long Rifle Headspace Gauge Kit Safety Instructions

## Introduction

Thank you for purchasing the GO/NOGO Gauge Sets Clymer 22 Long Rifle Headspace Gauge Kit. This product is designed to help you accurately check the chamber length of your firearm to ensure it meets SAAMI specifications. Proper use of this gauge kit is essential for maintaining safety and accuracy when chambering a new barrel. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Ensure that the gauge kit is used only by individuals who are knowledgeable about firearms and headspace measurements.
- Always handle firearms with care and follow all standard safety practices when using this gauge kit.
- Keep the gauge kit out of reach of children and unauthorized users.
- Regularly inspect the gauges for any signs of damage or wear before use.
- Use the gauge kit in a welllit area to ensure accurate measurements.
- Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Always wear safety glasses when handling firearms or using the gauge kit.
- Do not attempt to use the gauges if they are damaged. Replace any damaged gauges immediately.
- Ensure that the firearm is unloaded before using the gauge kit.
- Do not force the gauges into the chamber. If resistance is felt, stop immediately and investigate the cause.
- Follow the manufacturer's instructions for checking headspace to avoid misinterpretation of gauge readings.
- If unsure about the results, consult a qualified gunsmith for assistance.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Gather the GO and NOGO gauges from the kit.

### 2. Using the GO Gauge:

- Insert the GO gauge into the chamber of the firearm.
- The gauge should fit freely without any resistance. If it does not fit, the chamber may be too short.

### 3. Using the NOGO Gauge:

- After checking with the GO gauge, insert the NOGO gauge into the chamber.
- The NOGO gauge should not fit freely. If it does, the chamber may be too long, and further inspection is necessary.

### 4. Interpreting Results:

- If the GO gauge fits and the NOGO gauge does not, the headspace is acceptable.
- If the NOGO gauge fits, consult a qualified gunsmith for further evaluation.

## 5. **Storage:**

- After use, clean the gauges if necessary and store them in the provided durable plastic carrying case to protect them from damage.

## **Disposal Instructions**

- Dispose of any damaged or worn gauges in accordance with local regulations for metal disposal.
- Do not throw the gauges in regular household waste.
- If you are unsure how to dispose of the product, consult your local waste management authority for guidance.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the GO/NOGO Gauge Sets Clymer 22 Long Rifle Headspace Gauge Kit, please refer to the manufacturer's warranty and support resources. It is essential to have a reliable point of contact for any safety inquiries or product issues.

Stay safe and enjoy using your gauge kit responsibly!
