

GO HEADSPACE GAUGES - CLYMER 224 VALKYRIE GO GAUGE HEADSPACE GAUGE STEEL

[Gunsmith Tools](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER GO HEADSPACE GAUGES The Clymer Go Headspace Gauges are precision tools designed to assist gunsmiths and firearm enthusiasts in verifying the minimum safe chamber dimensions of rifles and shotguns. Proper headspace is crucial for ensuring that a firearm can chamber and fire a cartridge safely, preventing potential malfunctions or safety hazards. These gauges are essential when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers meet minimum safe dimensions, enhancing both safety and performance.

Attributes

- Name: [CLYMER 224 VALKYRIE GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184000077
- Mfr. No.: GO224VALK
- Cartridge: 224 Valkyrie
- Colour: Steel
- Height: 0.415"
- Length: 1.37"
- Material: Steel
- Model Number: 224 Valkyrie GO
- Style: Go Gauge
- Weight: 0.1 lbs
- Width: 0.415"
- Delivery weight: 0.025kg
- Shipping height: 22mm
- Shipping width: 22mm
- Shipping length: 58mm

Clymer Go Headspace Gauges Safety Instruction Guide

Introduction

Thank you for choosing the Clymer Go Headspace Gauges. This guide provides important safety instructions to ensure the safe and effective use of the product. Proper adherence to these guidelines will help prevent accidents and ensure optimal performance.

General Safety Guidelines

- Always inspect the gauge before use for any signs of damage or wear. Do not use a damaged gauge.
- Keep the gauge out of reach of children and unauthorized users.
- Use the gauge only for its intended purpose, which is to measure headspace in firearms.
- Ensure that you are familiar with the specific firearm and cartridge you are working with before using the gauge.
- Always wear appropriate safety gear, including eye protection, when handling firearms and gauges.
- Store the gauge in a safe, dry place when not in use to prevent corrosion and damage.

Specific Safety Precautions for Use

- Verify that the firearm is unloaded and pointed in a safe direction before using the gauge.
- Follow the manufacturer's instructions for the specific firearm model when using the gauge.
- Do not attempt to modify or alter the gauge in any way, as this can compromise its accuracy and safety.
- Be aware of the potential for a misfire or malfunction when chambering a cartridge. Always follow proper firearm safety protocols.
- If you are unsure about the proper use of the gauge, consult a qualified gunsmith or firearms expert for assistance.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded.
- Gather all necessary tools and safety equipment.

2. Using the Gauge:

- Insert the Clymer Go Headspace Gauge into the chamber of the firearm.
- Gently close the bolt. The gauge should fit snugly without excessive force.
- If the bolt does not close fully, the headspace may be too short, indicating a potential safety issue.
- If the bolt closes completely, the headspace is acceptable. However, further evaluation may be necessary based on specific firearm requirements.

3. PostUse:

- Remove the gauge from the chamber after use.
- Clean the gauge if necessary, following the manufacturer's cleaning instructions.
- Store the gauge securely to prevent damage or misuse.

Disposal Instructions

- Dispose of the Clymer Go Headspace Gauge in accordance with local regulations regarding metal products.
- Do not dispose of the gauge in regular household waste if it is damaged or worn beyond safe use.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Clymer Go Headspace Gauges, please consult your local firearms expert or a qualified gunsmith.

Conclusion

By following these safety instructions, you can ensure the safe and effective use of the Clymer Go Headspace Gauges. Always prioritize safety and consult professionals if you have any doubts or questions regarding the use of your gauge. Thank you for choosing Clymer products for your firearms needs.
