

GO HEADSPACE GAUGES - CLYMER 6.5MM CREEDMOOR GO HEADSPACE GAUGE STEEL

[Gunsmith Tools](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER GO HEADSPACE GAUGES The Clymer Go Headspace Gauges are precision tools designed to assist gunsmiths and firearm enthusiasts in verifying the minimum safe chamber dimensions of rifles and shotguns. Proper headspace is crucial for ensuring that a firearm can chamber and fire a cartridge safely, preventing potential malfunctions or safety hazards. These gauges are essential when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers meet minimum safe dimensions, enhancing both safety and performance.

Attributes

- Name: [CLYMER 6.5MM CREEDMOOR GO HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184000079
- Mfr. No.: GO6.5CREED
- Cartridge: 6.5 Creedmoor
- Colour: Steel
- Height: 0.465"
- Length: 1.7"
- Material: Steel
- Model Number: 6.5 Creedmoor Go
- Style: Go Gauge
- Weight: 0.1 lbs
- Width: 0.465"
- Delivery weight: 0.036kg
- Shipping height: 21mm
- Shipping width: 21mm
- Shipping length: 59mm

Clymer Go Headspace Gauges Safety Instruction Guide

Introduction

Thank you for purchasing the Clymer Go Headspace Gauges. These precision tools are designed for gunsmiths and firearm enthusiasts to ensure safe chamber dimensions for rifles and shotguns. This guide provides essential safety instructions to ensure proper use and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always handle firearms and related tools with care and responsibility.
- Ensure that you are familiar with the operation of your firearm before using the gauges.
- Keep the gauges out of reach of children and unauthorized users.
- Inspect the gauges before each use for any signs of damage or wear.
- Always follow the manufacturer's instructions for your specific firearm model.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the gauges only for their intended purpose: verifying headspace dimensions.
- Do not attempt to modify or alter the gauges in any way.
- Ensure that the firearm is unloaded before using the gauges.
- Use appropriate personal protective equipment (PPE), such as safety glasses, when working in a workshop environment.
- Be aware of your surroundings and ensure that no one is in the line of fire when using the gauges.
- Follow proper cleaning and maintenance procedures to ensure the gauges remain in good condition.

Instructions for Installation and Usage

• Preparation:

- Ensure that the firearm is completely unloaded.
- Gather all necessary tools and materials before beginning the process.

• Using the Gauge:

- Insert the Clymer Go Headspace Gauge into the chamber of the firearm.
- Gently close the bolt on the firearm to check for proper chambering.
- If the bolt closes easily, the headspace is within acceptable limits. If it does not, consult a qualified gunsmith for further evaluation.

• Maintenance:

- Clean the gauges after each use to remove dirt and debris.
- Store the gauges in a dry place to prevent rust and corrosion.
- Regularly inspect the gauges for any signs of wear or damage.

Disposal Instructions

- Dispose of any damaged or worn gauges in accordance with local regulations.
- Do not dispose of gauges in regular household waste if they are made of metal or hazardous materials.

- Contact local recycling facilities for proper disposal methods for metal tools.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Clymer Go Headspace Gauges, please refer to the manufacturer's website or customer service for assistance.

This safety instruction guide is designed to provide you with the necessary information to use the Clymer Go Headspace Gauges safely and effectively. Always prioritize safety and follow these guidelines to ensure a secure and efficient experience.
