

NO-GO HEADSPACE GAUGES - CLYMER NO GO 6.5MM CREEDMOOR HEADSPACE GAUGE STEEL

[Gunsmith Tools](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER NO-GO HEADSPACE GAUGES The Clymer No-Go Headspace Gauges are precision tools designed to help gunsmiths and firearm enthusiasts verify that a firearm's chamber does not exceed the maximum safe headspace dimensions. By identifying excessive chamber length, these gauges prevent potential safety hazards such as case ruptures or misfires, ensuring the firearm operates within the specified tolerances. They are essential during the chambering of new barrels, routine maintenance, or when assessing used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer No-Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer No-Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

Attributes

- Name: [CLYMER NO GO 6.5MM CREEDMOOR HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184000080
- Mfr. No.: NG6.5CREED
- Cartridge: 6.5 Creedmoor, 22 Creedmoor, 6mm Creedmoor
- Colour: Steel
- Height: 0.465"
- Length: 1.7"
- Material: Steel
- Model Number: NO GO 6.5mm Creedmoor
- Style: No Go Gauge
- Weight: 0.1 lbs
- Width: 0.465"
- Delivery weight: 0.036kg
- Shipping height: 21mm
- Shipping width: 21mm
- Shipping length: 59mm

Clymer NoGo Headspace Gauges Safety Instruction Guide

Introduction

Thank you for choosing the Clymer NoGo Headspace Gauges. These precision tools are designed to help ensure the safe operation of firearms by verifying that chamber dimensions do not exceed maximum safe limits. This guide provides essential safety instructions, usage guidelines, and contact information for further support.

General Safety Guidelines

- Always handle firearms and headspace gauges with care to prevent accidents.
- Use the gauges only for their intended purpose as described in this guide.
- Ensure that you are in a safe environment free from distractions when using the gauges.
- Keep the gauges out of reach of children and vulnerable individuals.
- Regularly inspect the gauges for any signs of wear or damage before use.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Proper Handling:** Always handle the gauges with clean hands and avoid touching the measuring surfaces to maintain accuracy.
- **Environment:** Use the gauges in a welllit and clean area to avoid misreading measurements.
- **Firearm Compatibility:** Ensure that the gauge you are using is compatible with the specific caliber of your firearm to avoid misfires or damage.
- **Inspection:** Inspect the gauge for any visible damage or deformation before each use. Do not use if damaged.
- **Storage:** Store gauges in a protective case or designated area to prevent damage or contamination.

Instructions for Installation and Usage

1. Selecting the Gauge:

- Choose the appropriate Clymer NoGo Headspace Gauge based on the caliber of your firearm. The available calibers include 6.5 Creedmoor, 6mm Creedmoor, and 22 Creedmoor.

2. Preparing the Firearm:

- Ensure that the firearm is unloaded and that the chamber is clean and free of debris.

3. Using the Gauge:

- Insert the NoGo gauge into the chamber of the firearm.
- Ensure that the gauge is fully seated in the chamber.
- Attempt to close the bolt. If the bolt does not close, the headspace is acceptable. If the bolt closes, this indicates excessive headspace, and further inspection or a different gauge may be required.

4. PostUse Care:

- Clean the gauge after use to remove any residue or contaminants.
- Store the gauge in a safe and dry place, preferably in its original packaging.

Disposal Instructions

- Dispose of any damaged or unusable gauges in accordance with local regulations.
- Do not dispose of gauges in regular household waste. Check for designated recycling centers or hazardous waste disposal options in your area.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Clymer NoGo Headspace Gauges, please reach out to your local distributor or visit the manufacturer's website for additional resources and support.

Thank you for prioritizing safety and precision with the Clymer NoGo Headspace Gauges. Your attention to these guidelines will help ensure a safe and effective experience.
