## Headspace Gauge Sets In Popular Rifle & Pistol Calibers

CLYMER GO & NO-GO HEADSPACE GAUGE SETS The Clymer Go & No-Go Headspace Gauge Sets are essential tools for gunsmiths and firearm enthusiasts, designed to accurately measure and ensure proper chamber headspace in rifles. These gauges verify that a firearm's chamber meets the Sporting Arms and Ammunition Manufacturers' Institute (SAAMI) specifications, ensuring safe and reliable operation. Key Features: Precision Measurement: Each gauge is precision-machined from high-quality steel to exact SAAMI specifications, providing accurate assessments of chamber dimensions. Comprehensive Sets: Each set includes one "Go" gauge and one "No-Go" gauge for a specific caliber, allowing for thorough evaluation of a firearm's chamber size. Durable Storage: The gauges come in a handy, durable plastic carrying case, offering protection and easy organization. Specifications: Material: Machined steel Standards: Manufactured to SAAMI specifications Included Gauges: "Go" Gauge: Confirms the minimum chamber size "No-Go" Gauge: Identifies excessive chamber size Caliber Options: Available in various calibers to suit different firearms Customer Insights: Our customers consistently praise the Clymer Go & No-Go Headspace Gauge Sets for their precision and reliability. Many appreciate the inclusion of both gauges in a single set, simplifying the process of checking headspace. The durable plastic carrying case is also highlighted as a convenient feature for storage and transport. Incorporating the Clymer Go & No-Go Headspace Gauge Sets into your firearm maintenance routine ensures that your rifles operate within safe headspace parameters, enhancing both safety and performance.

## Attributes

- Name: [CLYMER 6.5 PRC HEADSPACE GAUGE KIT STEEL](#)

## Safety Instruction Guide

### Introduction

Thank you for choosing the Clymer Go & NoGo Headspace Gauge Sets. These tools are designed for gunsmiths and firearm enthusiasts to ensure the safety and reliability of your rifles. This guide provides essential safety instructions and guidelines to help you use these gauges effectively and responsibly.

### General Safety Guidelines

- **Product Safety:** Always use the gauges as intended. Ensure that they are in good condition before use.
- **Enhanced Recalls:** Stay informed about any recalls related to the product. Check the EU's Safety Gate platform for updates.
- **Online Shopping:** When purchasing online, ensure that the seller meets the safety requirements outlined by the EU.
- **Special Consumer Focus:** Keep these gauges out of reach of children and ensure they are used only by responsible adults.
- **EU Contact Point:** For any safety inquiries, consult your local EU-based contact or regulatory authority.
- **Rapid Alerts:** Be aware of the Safety Gate system for quick updates on unsafe products.

### Specific Safety Precautions for Use

- **Hazard Identification:**
  - Improper use of the gauges can lead to inaccurate measurements, potentially resulting in unsafe firearm operation.
  - Always inspect the gauges for damage before use. Do not use if they show signs of wear or deformation.
- **Avoiding Hazards:**
  - Use the gauges only in a clean, well-lit environment.
  - Ensure that the firearm is unloaded before attempting to measure headspace.
  - Do not force the gauges into the chamber. If resistance is encountered, stop and recheck the gauge and chamber condition.
  - Always follow the manufacturer's instructions for your specific firearm when using the gauges.
- **Age-Specific Warnings:**
  - These gauges are intended for use by adults only. Ensure that children do not have access to them.

### Instructions for Installation and Usage

#### 1. Preparation:

- Ensure that you have a clean workspace with adequate lighting.
- Gather all necessary tools, including the Clymer Go & NoGo Headspace Gauges and any additional tools required for your firearm.

#### 2. Using the Gauges:

- **Go Gauge:**
  - Insert the "Go" gauge into the chamber of the firearm. It should fit without force. If it does not fit, consult your firearm's specifications.
- **NoGo Gauge:**
  - Next, insert the "NoGo" gauge into the chamber. It should not fit. If it does fit, this indicates excessive chamber size and potential safety issues.

### 3. **PostUse:**

- After use, clean the gauges if necessary and store them in the provided durable plastic carrying case to protect them from damage.
- Always store the gauges in a secure location, away from children and unauthorized users.

## **Disposal Instructions**

- Dispose of the gauges responsibly. If they are damaged or no longer usable, consult local regulations regarding the disposal of metal products.
- Do not dispose of the gauges in regular household waste. Check for recycling options in your area.

## **Contact Information for Further Support**

For any questions or concerns regarding the Clymer Go & NoGo Headspace Gauge Sets, please consult your local EUbased contact or regulatory authority for further assistance.

By following these safety instructions, you can ensure the effective and safe use of your Clymer Go & NoGo Headspace Gauge Sets. Thank you for prioritizing safety in your firearm maintenance routine.
