

BARREL SPINNER - CLYMER STD BARREL SPINNER

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Polishing Tools & Accessories](#) > [Barrel Spinners](#)

Save Polishing Time, Prevent Ripples & Flat Spots

Fastest way to polish barrels and magazine tubes with no ripples or flat spots. Cheaper and easier to use than a lathe. Just secure the barrel between the non-marring, Delrin® centers, turn on the buffer, and touch the barrel to the buffing wheel or expandable sanding drum. As the barrel spins, slide it across the wheel, varying the angle and pressure to get the best cut.

Safety Instructions for BARREL SPINNER CLYMER STD BARREL SPINNER

Introduction

Thank you for choosing the BARREL SPINNER CLYMER STD BARREL SPINNER. This product is designed to provide an efficient and effective way to polish barrels and magazine tubes. To ensure safe and proper use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always read the instruction manual before using the product.
- Ensure that the work area is clean and free of clutter to prevent accidents.
- Use personal protective equipment (PPE) such as safety goggles, gloves, and hearing protection while operating the machine.
- Keep children and pets away from the work area during use.
- Do not use the product for any purpose other than its intended use.
- Regularly inspect the product for any signs of wear or damage before use.
- In case of any malfunction or damage, cease use immediately and consult a professional.

Specific Safety Precautions for Use

- Ensure that the barrel is securely fastened between the nonmarring Delrin centers before turning on the buffer.
- Always turn off the machine and unplug it before making any adjustments or changing components.
- Avoid wearing loose clothing or jewelry that may get caught in the machinery.
- Do not place hands or fingers near the buffing wheel or expandable sanding drum while the machine is in operation.
- Use caution when adjusting the angle and pressure of the barrel against the buffing wheel to prevent injury.
- Never leave the machine unattended while it is running.

Instructions for Installation and Usage

1. Setup:

- Place the BARREL SPINNER on a stable, flat surface.
- Ensure that the area is wellventilated and free from flammable materials.

2. Securing the Barrel:

- Open the spinner centers and place the barrel securely between the Delrin centers.
- Close the centers to grip the barrel firmly without causing damage.

3. Operating the Machine:

- Plug in the machine and turn on the buffer.
- Gently touch the barrel to the buffing wheel or expandable sanding drum while it spins.
- Slide the barrel across the wheel, varying the angle and pressure to achieve the desired polish.
- Monitor the process closely to avoid excessive wear or damage to the barrel.

4. Finishing Up:

- Once finished, turn off the machine and unplug it.
- Carefully remove the barrel from the spinner centers.
- Clean the work area to remove any debris or dust generated during use.

Disposal Instructions

- Dispose of the product responsibly at the end of its life cycle.
- Follow local regulations for the disposal of electronic and mechanical products.
- Do not dispose of the product in regular household waste.

Contact Information for Further Support

For any inquiries or assistance regarding the BARREL SPINNER CLYMER STD BARREL SPINNER, please refer to the manufacturer's contact information provided with the product packaging.

Please ensure compliance with these safety instructions to maximize your safety and the performance of the BARREL SPINNER CLYMER STD BARREL SPINNER. Thank you for your attention to these important guidelines.
