

# BARREL SPINNER - STD BARREL SPINNER CENTERS

[Gunsmith Tools & Supplies](#) > [Metal Prep & Coloring](#) > [Polishing Tools & Accessories](#) > [Barrel Spinners](#)

## Save Polishing Time, Prevent Ripples & Flat Spots

Fastest way to polish barrels and magazine tubes with no ripples or flat spots.

Cheaper and easier to use than a lathe. Just secure the barrel between the non-marring, Delrin® centers, turn on the buffer, and touch the barrel to the buffering wheel or expandable sanding drum. As the barrel spins, slide it across the wheel, varying the angle and pressure to get the best cut.

# Barrel Spinner Safety Instructions

## Introduction

Thank you for choosing the Barrel Spinner STD Barrel Spinner Centers by Clymer. This product is designed to help you polish barrels and magazine tubes quickly and efficiently. However, safe usage is paramount. Please read this safety instruction guide carefully to ensure safe operation and maintenance of the product.

## General Safety Guidelines

- Always read and understand the user manual before operating the Barrel Spinner.
- Ensure that the product is used only for its intended purpose.
- Keep the work area clean, dry, and welllit to prevent accidents.
- Keep children and pets away from the work area during operation.
- Always wear appropriate personal protective equipment, including safety glasses and gloves.
- Do not operate the Barrel Spinner if you are tired, under the influence of drugs or alcohol, or if you are feeling unwell.
- Regularly inspect the Barrel Spinner for any signs of wear or damage before use.
- Report any unsafe products or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

### • Hazard Identification:

- Potential pinch points exist where moving parts meet stationary parts.
- The buffing wheel or sanding drum can cause injury if contacted improperly.
- Dust generated during polishing may be harmful if inhaled.

### • Avoiding Hazards:

- Always ensure the barrel is securely fastened between the nonmarring Delrin centers before operation.
- Keep fingers and hands away from moving parts while the Barrel Spinner is in operation.
- Use a dust mask if dust is generated during the polishing process.
- Adjust the angle and pressure carefully to avoid excessive force that could lead to loss of control.

### • Age Specific Warning:

- This product is not intended for use by children. Ensure that it is used only by individuals who are trained and competent to operate machinery.

## Instructions for Installation and Usage

### 1. Installation:

- Unpack the Barrel Spinner and ensure all components are included:
  - Frame
  - Spinner Centers
  - Support Arms
- Place the Barrel Spinner on a stable, flat surface.
- Securely attach the spinner centers to the frame as per the provided assembly instructions.

### 2. Using the Barrel Spinner:

- Secure the barrel between the nonmarring Delrin centers.
- Turn on the buffer and allow it to reach full speed.
- Gently touch the barrel to the buffering wheel or expandable sanding drum.
- While the barrel spins, slide it across the wheel, varying the angle and pressure to achieve the desired polish.
- Always monitor the process to ensure safety and effectiveness.

### **3. PostUse:**

- Turn off the buffer and allow it to come to a complete stop before removing the barrel.
- Clean the work area to remove any dust or debris generated during polishing.

## **Disposal Instructions**

- Dispose of the Barrel Spinner and any associated materials in accordance with local regulations.
- Do not dispose of electrical components in regular waste; check for local ewaste disposal guidelines.

## **Contact Information for Further Support**

For any safety inquiries or support regarding the Barrel Spinner, please contact your local authorized dealer or the manufacturer directly. Ensure you have the product details ready for efficient assistance.

Thank you for taking the time to read this safety instruction guide. Your safety and satisfaction are our top priorities. Enjoy using your Barrel Spinner!
