

RIMLESS RIFLE CHAMBERING REAMERS - CLYMER 5.56MM NATO FINISHING REAMER

[Gunsmith Tools](#) > [Barrel Tools](#) > [Reamers](#) > [Centerfire Reamers](#)

Finest Workmanship & Quality; Made In USA From M-7 High Speed Steel

Made by Clymer, a truly dedicated group of gun people, from best quality, M-7 High-Speed Steel. These are precision tools for the professional gunsmith and will give a lifetime of service when properly cared for. Fully guaranteed.

Roughers are .010" smaller in diameter than the final size, do not cut the throat area and should be used to save wear on the Finish Reamer when many chambers are to be cut. If only a few chambers will be cut, a Finish Reamer is all you need. Superb quality reamers made to SAAMI specifications.

Note: If you do not see the caliber you are looking for below, please feel free to contact our [Special Orders Department](#), as many additional items are available from Clymer.

RIMLESS RIFLE CHAMBERING REAMERS CLYMER

5.56MM NATO FINISHING REAMER Safety Instructions

Introduction

Thank you for choosing the RIMLESS RIFLE CHAMBERING REAMERS CLYMER 5.56MM NATO FINISHING REAMER. This guide provides important safety instructions and guidelines to ensure safe and effective use of this precision tool. Please read this document carefully before using the product.

General Safety Guidelines

- Ensure that the reamer is used only by qualified individuals who understand its function and operation.
- Always wear appropriate personal protective equipment (PPE), such as safety goggles and gloves, when handling and using the reamer.
- Keep the work area clean and welllit to avoid accidents.
- Store the reamer in a secure location, out of reach of children and unauthorized users.
- Inspect the reamer for any damage or wear before each use. Do not use if damaged.
- Follow local regulations and guidelines regarding the use of firearms and related tools.

Specific Safety Precautions for Use

- Use the reamer only for its intended purpose: chambering rifle barrels in the specified caliber (5.56 mm NATO).
- Do not exceed the recommended cutting speeds and feeds for the material being worked on.
- Avoid using excessive force when cutting. Allow the tool to do the work.
- Never attempt to modify or alter the reamer in any way.
- If you experience unusual resistance or binding during use, stop immediately and inspect the reamer and workpiece for issues.
- Ensure that the reamer is securely mounted in the appropriate tool holder before use.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and safety equipment.
- Ensure that the workpiece is securely clamped and stable.

2. Installation:

- Insert the reamer into the appropriate tool holder, ensuring it is properly aligned and secured.
- Check that the shank is properly seated in the chuck or holder.

3. Usage:

- Start the machine at a low speed to ensure the reamer is cutting properly.
- Gradually increase the speed as needed, monitoring the cutting process closely.
- Use cutting fluid as appropriate to reduce friction and heat during operation.
- After completing the cut, carefully withdraw the reamer from the workpiece.

4. PostUse:

- Clean the reamer after each use to remove any debris or buildup.
- Store the reamer in its protective case or designated storage area.

Disposal Instructions

- Dispose of any worn or damaged reamers in accordance with local waste disposal regulations.
- Do not discard the reamer in regular household waste. Check for recycling options or hazardous waste disposal facilities.

Contact Information for Further Support

For any safety inquiries or concerns regarding the use of this product, please refer to the manufacturer's contact information provided with your purchase.

Thank you for your attention to these safety instructions. Your safety is our priority, and we hope you enjoy using the RIMLESS RIFLE CHAMBERING REAMERS CLYMER 5.56MM NATO FINISHING REAMER responsibly and effectively.
