

RIMLESS RIFLE CHAMBERING REAMERS - 17 REMINGTON FINISHING REAMER

[Gunsmith Tools & Supplies](#) > [Barrel Tools](#) > [Reamers](#) > [Centerfire Reamers](#)

Finest Workmanship & Quality; Made In USA From M-7 High Speed Steel

Made by Clymer, a truly dedicated group of gun people, from best quality, M-7 High-Speed Steel. These are precision tools for the professional gunsmith and will give a lifetime of service when properly cared for. Fully guaranteed. Roughers are .010" smaller in diameter than the final size, do not cut the throat area and should be used to save wear on the Finish Reamer when many chambers are to be cut. If only a few chambers will be cut, a Finish Reamer is all you need. Superb quality reamers made to SAAMI specifications.

Note: If you do not see the caliber you are looking for below, please feel free to contact our [Special Orders Department](#), as many additional items are available from Clymer.

Safety Instruction Guide for RIMLESS RIFLE CHAMBERING REAMERS 17 REMINGTON FINISHING REAMER

Introduction

Thank you for choosing the RIMLESS RIFLE CHAMBERING REAMERS 17 REMINGTON FINISHING REAMER manufactured by Clymer. This product is designed for professional gunsmiths and is made from highquality M7 HighSpeed Steel. While this tool is built for durability and precision, it is essential to follow safety guidelines to ensure safe usage and optimal performance. This guide provides important safety instructions and information about the product.

General Safety Guidelines

- Ensure that you are familiar with the operation of the reamer before use.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves.
- Keep the work area clean and welllit to avoid accidents.
- Store the reamer in a safe place, out of reach of children and unauthorized users.
- Regularly inspect the reamer for any signs of damage or wear before use.
- Follow all local laws and regulations related to firearms and gunsmithing.

Specific Safety Precautions for Use

- Do not use the reamer if you are under the influence of drugs or alcohol.
- Avoid wearing loose clothing or jewelry that could get caught in the tool.
- Ensure that the reamer is securely attached to the drill or machine before starting.
- Use the reamer only for its intended purpose as specified in the product description.
- Do not force the reamer; if it binds or becomes difficult to operate, stop and assess the situation.
- Always cut in a controlled manner to prevent injury or damage to the workpiece.
- If you experience any unusual vibrations or noises during use, stop immediately and inspect the tool.

Instructions for Installation and Usage

1. Preparation:

- Ensure that you have the correct reamer for the cartridge caliber you are working with.
- Gather all necessary tools and equipment for the job.

2. Installation:

- Secure the reamer into the drill or machine, ensuring it is tightly fastened.
- Verify that the shank size matches the chuck of your drill or machine.

3. Usage:

- Begin cutting at a slow speed to establish a clean cut.
- Gradually increase speed as needed, maintaining control throughout the process.
- Monitor the reamer's performance and adjust as necessary to prevent overheating.
- After completing the cut, carefully remove the reamer and clean any debris from the work area.

Disposal Instructions

- Dispose of any damaged or worn reamers according to local regulations.
- Do not throw the reamer in regular household waste.
- Consider recycling options if available in your area.

Contact Information for Further Support

For any inquiries regarding safety or product performance, please refer to the contact details provided by the manufacturer. It is important to have access to support for any questions or concerns you may have regarding the safe use of this product.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience while using the RIMLESS RIFLE CHAMBERING REAMERS 17 REMINGTON FINISHING REAMER. Remember to stay informed about safety recalls and product updates through the appropriate channels. Thank you for prioritizing safety in your gunsmithing practices.
