

# RIMLESS RIFLE CHAMBERING REAMERS - CLYMER 222 REMINGTON FINISHING REAMER

[Gunsmith Tools](#) > [Barrel Tools](#) > [Reamers](#) > [Centerfire Reamers](#)

## **Finest Workmanship & Quality; Made In USA From M-7 High Speed Steel**

Made by Clymer, a truly dedicated group of gun people, from best quality, M-7 High-Speed Steel. These are precision tools for the professional gunsmith and will give a lifetime of service when properly cared for. Fully guaranteed.

Roughers are .010" smaller in diameter than the final size, do not cut the throat area and should be used to save wear on the Finish Reamer when many chambers are to be cut. If only a few chambers will be cut, a Finish Reamer is all you need. Superb quality reamers made to SAAMI specifications.

**Note:** If you do not see the caliber you are looking for below, please feel free to contact our [Special Orders Department](#), as many additional items are available from Clymer.

# Safety Instruction Guide for RIMLESS RIFLE CHAMBERING REAMERS CLYMER 222 REMINGTON FINISHING REAMER

## Introduction

Thank you for choosing the RIMLESS RIFLE CHAMBERING REAMERS CLYMER 222 REMINGTON FINISHING REAMER. This guide provides essential safety instructions and information to ensure the safe and effective use of this product. Please read this guide carefully before use.

## General Safety Guidelines

- Always ensure that the reamer is used in accordance with the manufacturer's instructions.
- Keep the reamer out of reach of children and unauthorized users.
- Inspect the reamer for any damage before each use. Do not use if damaged.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling the reamer.
- Store the reamer in a safe and secure location when not in use.
- Follow all local laws and regulations regarding firearms and gunsmithing tools.

## Specific Safety Precautions for Use

- Ensure that the work area is clean, welllit, and free from distractions.
- Use the reamer only for its intended purpose as specified by the manufacturer.
- Avoid excessive force when using the reamer to prevent damage and ensure safety.
- Do not attempt to modify or alter the reamer in any way.
- If you are inexperienced in using reamers, seek guidance from a qualified professional.
- Always use the appropriate size and type of reamer for the specific chamber you are working on.
- Be aware of the potential hazards associated with highspeed tools, including the risk of injury from rotating parts.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that the firearm is unloaded and that the chamber is clear of any ammunition.
- Gather all necessary tools and equipment before starting.

### 2. Using the Reamer:

- Secure the reamer in a drill or machine that is compatible with the 7/16" round shank.
- If using a .22 RF, ensure that the 1/4" round shank is properly fitted.
- Start the drill at a low speed to ensure accuracy and control.
- Gradually increase the speed as necessary, but do not exceed recommended speeds.
- Apply consistent and even pressure while reaming to achieve the desired chamber finish.
- After use, clean the reamer to remove any debris and prevent rusting.

## Disposal Instructions

- Dispose of the reamer in accordance with local regulations for metal and tool disposal.
- Do not throw the reamer in regular household waste.
- If the reamer is damaged beyond repair, consider recycling the materials where possible.

## **Contact Information for Further Support**

For any inquiries related to safety or product usage, please refer to the manufacturer's contact information provided with the product packaging or visit the manufacturer's official website.

Thank you for following these safety guidelines. Your safety and satisfaction are our top priorities.
