

RIMLESS RIFLE CHAMBERING REAMERS - CLYMER 22-250 REMINGTON ROUGHER REAMER

[Gunsmith Tools](#) > [Barrel Tools](#) > [Reamers](#) > [Centerfire Reamers](#)

Finest Workmanship & Quality; Made In USA From M-7 High Speed Steel

Made by Clymer, a truly dedicated group of gun people, from best quality, M-7 High-Speed Steel. These are precision tools for the professional gunsmith and will give a lifetime of service when properly cared for. Fully guaranteed.

Roughers are .010" smaller in diameter than the final size, do not cut the throat area and should be used to save wear on the Finish Reamer when many chambers are to be cut. If only a few chambers will be cut, a Finish Reamer is all you need. Superb quality reamers made to SAAMI specifications.

Note: If you do not see the caliber you are looking for below, please feel free to contact our [Special Orders Department](#), as many additional items are available from Clymer.

RIMLESS RIFLE CHAMBERING REAMERS CLYMER

22250 REMINGTON ROUGHER REAMER Safety Instructions

Introduction

Thank you for purchasing the Clymer Rimless Rifle Chambering Reamer for the 22250 Remington. This precision tool is designed for professional gunsmiths and is made from highquality M7 HighSpeed Steel. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that you are trained and experienced in using reamers and other gunsmithing tools before attempting to use the Clymer Rimless Rifle Chambering Reamer.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using this tool.
- Keep the work area clean and free of distractions to maintain focus while using the reamer.
- Store the reamer in a safe and secure location when not in use to prevent accidental injury or damage.

Specific Safety Precautions for Use

- **Hazard Awareness:** Be aware of the potential hazards associated with using a reamer, including:

- Injury from sharp edges or rotating parts.
- Inhalation of metal shavings or debris.
- Eye injury from flying particles.

- **Avoiding Hazards:**

- Always ensure the reamer is properly secured in the chuck before use.
- Do not attempt to use the reamer if it is damaged or worn.
- Keep hands and body parts away from the cutting area during operation.
- Do not wear loose clothing or jewelry that may become caught in the tool.

- **Age Restrictions:** This tool is intended for use by trained adults only. It should be kept out of reach of children and inexperienced individuals.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the workpiece is securely clamped.
- Check that all necessary tools and materials are within reach.

2. Using the Rougher Reamer:

- Select the appropriate reamer for your project. The rougher reamer is .010" smaller in diameter than the final size and is designed to save wear on the finish reamer.
- Position the reamer in the chuck of your machine, ensuring it is tight and secure.
- Start the machine at a low speed to ensure stability.
- Gradually increase speed as needed, maintaining control throughout the process.

3. PostUse Care:

- After using the reamer, clean it thoroughly to remove any metal shavings or debris.
- Inspect the reamer for any signs of damage or wear before storing it.

Disposal Instructions

- Dispose of any metal shavings or debris in accordance with local regulations regarding metal waste.
- When the reamer reaches the end of its useful life, dispose of it responsibly. Check for local recycling programs that accept metal tools.

Contact Information for Further Support

For any safety inquiries or additional support, please reach out to the designated EU contact point for this product. Always ensure that you have the necessary information on hand when seeking assistance.

By following these guidelines, you can ensure the safe and effective use of the Clymer Rimless Rifle Chambering Reamer. Thank you for your attention to safety, and happy gunsmithing!
