

RIMLESS RIFLE CHAMBERING REAMERS - CLYMER 6MM REMINGTON BR FINISHING REAMER

[Gunsmith Tools](#) > [Barrel Tools](#) > [Reamers](#) > [Centerfire Reamers](#)

Finest Workmanship & Quality; Made In USA From M-7 High Speed Steel

Made by Clymer, a truly dedicated group of gun people, from best quality, M-7 High-Speed Steel. These are precision tools for the professional gunsmith and will give a lifetime of service when properly cared for. Fully guaranteed. Roughers are .010" smaller in diameter than the final size, do not cut the throat area and should be used to save wear on the Finish Reamer when many chambers are to be cut. If only a few chambers will be cut, a Finish Reamer is all you need. Superb quality reamers made to SAAMI specifications.

Note: If you do not see the caliber you are looking for below, please feel free to contact our [Special Orders Department](#), as many additional items are available from Clymer.

Safety Instruction Guide for RIMLESS RIFLE CHAMBERING REAMERS CLYMER 6MM REMINGTON BR FINISHING REAMER

Introduction

Thank you for choosing the Clymer Rimless Rifle Chambering Reamer for your gunsmithing needs. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read the entire guide carefully before using the reamer.

General Safety Guidelines

- Ensure the reamer is used only by qualified personnel familiar with gunsmithing tools and practices.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, while using the reamer.
- Keep the work area clean and well-lit to prevent accidents.
- Store the reamer in a safe, dry place when not in use, out of reach of children and unauthorized individuals.
- Regularly inspect the reamer for any signs of damage or wear. Do not use if damaged.

Specific Safety Precautions for Use

- Always use the reamer in accordance with the manufacturer's instructions.
- Do not exceed the recommended cutting speed and feed rates to avoid overheating and damaging the tool.
- Ensure that the reamer is securely mounted in the drill or machine before starting operation.
- Avoid wearing loose clothing or jewelry that could become entangled in the machinery.
- Be aware of your surroundings and ensure that no one is in close proximity while operating the reamer.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and PPE before beginning.
- Ensure the work area is clean and free from obstructions.

2. Installation:

- Securely attach the reamer to the appropriate drill or machine using the 7/16" round shank with 3/8" square drive or the 1/4" round shank for .22 RF.
- Doublecheck that the reamer is properly aligned and tightened to prevent slippage during use.

3. Usage:

- Start the drill or machine at a low speed and gradually increase to the recommended operating speed.
- Apply consistent pressure while reaming, allowing the tool to do the work. Do not force the reamer.
- Monitor the cutting process to ensure smooth operation and to prevent overheating.
- After completing the reaming process, turn off the machine and carefully remove the reamer.

Disposal Instructions

- Dispose of any damaged or worn reamers in accordance with local regulations regarding metal waste.
- Do not dispose of the reamer in regular household waste. Check with your local waste management authority for proper disposal methods.

Contact Information for Further Support

For safety inquiries or additional support regarding the Clymer Rimless Rifle Chambering Reamer, please refer to the product packaging or visit the manufacturer's website for more information.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience while using the Clymer Rimless Rifle Chambering Reamer. Always prioritize safety and proper handling of tools to prevent accidents and injuries. Thank you for your attention to these important guidelines.
