

RIMLESS RIFLE CHAMBERING REAMERS - CLYMER 300 REMINGTON ULTRA MAG FINISHING REAMER

[Gunsmith Tools](#) > [Barrel Tools](#) > [Reamers](#) > [Centerfire Reamers](#)

Finest Workmanship & Quality; Made In USA From M-7 High Speed Steel

Made by Clymer, a truly dedicated group of gun people, from best quality, M-7 High-Speed Steel. These are precision tools for the professional gunsmith and will give a lifetime of service when properly cared for. Fully guaranteed.

Roughers are .010" smaller in diameter than the final size, do not cut the throat area and should be used to save wear on the Finish Reamer when many chambers are to be cut. If only a few chambers will be cut, a Finish Reamer is all you need. Superb quality reamers made to SAAMI specifications.

Note: If you do not see the caliber you are looking for below, please feel free to contact our [Special Orders Department](#), as many additional items are available from Clymer.

Safety Instruction Guide for RIMLESS RIFLE CHAMBERING REAMERS CLYMER 300 REMINGTON ULTRA MAG FINISHING REAMER

Introduction

Thank you for choosing the RIMLESS RIFLE CHAMBERING REAMERS CLYMER 300 REMINGTON ULTRA MAG FINISHING REAMER. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that the reamer is used only by qualified personnel or experienced gunsmiths.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when handling and using the reamer.
- Keep the reamer out of reach of children and unauthorized users.
- Regularly inspect the reamer for wear or damage before use. Do not use if damaged.
- Follow all local laws and regulations regarding firearm tools and equipment.
- Ensure a clean and organized workspace to minimize risks of accidents.

Specific Safety Precautions for Use

- Use the reamer only for its intended purpose as specified in this guide.
- Do not exceed the manufacturer's recommended operating speeds and feeds.
- Avoid using excessive force when cutting; let the tool do the work.
- Ensure that the workpiece is securely clamped before starting the reaming process.
- Keep hands and other body parts clear of the cutting area during operation.
- Be aware of the risk of flying debris and chips; always wear protective eyewear.
- Use coolant or lubricant as recommended to reduce heat and prolong tool life.
- Do not leave the reamer unattended during operation.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and materials.
- Ensure that the workspace is clear of unnecessary items.

2. Installation

- Securely mount the reamer in a compatible drill or machine.
- Ensure that the shank is properly seated and tightened to prevent slippage.
- Check that all safety guards are in place before starting the machine.

3. Usage

- Set the machine to the recommended speed for the material being cut.
- Begin the reaming process by gently applying pressure to the reamer.
- Monitor the cutting process and adjust pressure as necessary to maintain a steady cut.
- If the reamer becomes dull or shows signs of wear, stop using it and replace it with a new one.

4. PostUse Care

- Clean the reamer with a suitable cleaning solution to remove chips and debris.
- Inspect the reamer for any signs of damage or wear.
- Store the reamer in a secure, dry location away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of the reamer in accordance with local regulations regarding metal and tool disposal.
- Do not dispose of the reamer in regular household waste.
- Consider recycling options if available in your area.

Contact Information for Further Support

For any inquiries regarding the safety and use of this product, please refer to the manufacturer's contact information provided with your purchase.

This safety instruction guide is designed to help you use the RIMLESS RIFLE CHAMBERING REAMERS CLYMER 300 REMINGTON ULTRA MAG FINISHING REAMER safely and effectively. Adhering to these guidelines will help ensure a safe working environment and protect both the user and the tool. Thank you for your attention to safety.
