

RIMMED & BELTED RIFLE CHAMBERING REAMERS - CLYMER 30-30 WINCHESTER FINISHER CHAMBER REAMER

[Gunsmith Tools](#) > [Barrel Tools](#) > [Reamers](#) > [Centerfire Reamers](#)

Finest Workmanship & Quality; Made In USA From M-7 High Speed Steel

Made by Clymer, a truly dedicated group of gun people, from best quality, M-7 High-Speed Steel. These are precision tools for the professional gunsmith and will give a lifetime of service when properly cared for. Fully guaranteed. Roughers are .010" smaller in diameter than the final size, do not cut the throat area and should be used to save wear on the Finish Reamer when many chambers are to be cut. If only a few chambers will be cut, a Finish Reamer is all you need. Superb quality reamers made to SAAMI specifications.

RIMMED & BELTED RIFLE CHAMBERING REAMERS CLYMER 3030 WINCHESTER FINISHER CHAMBER REAMER Safety Instructions

Introduction

Thank you for choosing the Clymer 3030 Winchester Finisher Chamber Reamer. This tool is designed for professional gunsmiths and is made from highquality materials to ensure precision and longevity. This safety instruction guide outlines essential safety information to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand the instructions before using the reamer.
- Use the reamer only for its intended purpose as specified in the product description.
- Keep the reamer and all tools out of reach of children and unauthorized users.
- Regularly inspect the reamer for signs of wear or damage before each use.
- Ensure all safety equipment, such as goggles and gloves, is worn during operation.
- Follow all local regulations and guidelines regarding the use of firearms and associated tools.

Specific Safety Precautions for Use

- Ensure the work area is clean and free from clutter to prevent accidents.
- Always use the reamer in a wellventilated area to avoid inhalation of any harmful particles.
- Do not exceed the recommended cutting speeds and feeds for the reamer to prevent overheating and damage.
- Use the appropriate cutting fluid to enhance performance and reduce wear on the tool.
- Avoid using the reamer on materials for which it is not designed.
- Do not attempt to modify or alter the reamer in any way.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and safety equipment before starting.
- Verify that you have the correct reamer for your specific chambering needs.

2. Installation:

- Secure the reamer in the appropriate chuck or holder.
- Ensure that the reamer is properly aligned to avoid miscuts.

3. Usage:

- Begin the cutting process at a slow speed to ensure proper engagement of the reamer with the material.
- Gradually increase the speed as necessary, monitoring for any signs of difficulty or excessive resistance.
- Use smooth, even pressure while cutting to maintain control and achieve a clean finish.
- Periodically withdraw the reamer to clear any debris and ensure optimal cutting performance.

4. PostUsage:

- Clean the reamer thoroughly after use to remove any residues.
- Store the reamer in a safe and dry location to prevent corrosion and damage.

Disposal Instructions

- Dispose of the reamer in accordance with local regulations concerning metal waste.
- If the reamer is damaged beyond repair, consider recycling the materials where applicable.

Contact Information for Further Support

For any inquiries or safety concerns regarding the Clymer 3030 Winchester Finisher Chamber Reamer, please refer to your local distributor or manufacturer's website for assistance.

By following these safety instructions, you can ensure a safe and effective experience with your Clymer reamer. Thank you for prioritizing safety and compliance while using our products.
