

# RIMMED & BELTED RIFLE CHAMBERING REAMERS - CLYMER 300 H&H MAGNUM FINISHER CHAMBER REAMER

[Gunsmith Tools](#) > [Barrel Tools](#) > [Reamers](#) > [Centerfire Reamers](#)

**Finest Workmanship & Quality; Made In USA From M-7 High Speed Steel**

Made by Clymer, a truly dedicated group of gun people, from best quality, M-7 High-Speed Steel. These are precision tools for the professional gunsmith and will give a lifetime of service when properly cared for. Fully guaranteed.

Roughers are .010" smaller in diameter than the final size, do not cut the throat area and should be used to save wear on the Finish Reamer when many chambers are to be cut. If only a few chambers will be cut, a Finish Reamer is all you need. Superb quality reamers made to SAAMI specifications.

# Safety Instruction Guide for Clymer 300 H&H Magnum Finisher Chamber Reamer

## Introduction

Thank you for choosing the Clymer 300 H&H Magnum Finisher Chamber Reamer. This guide provides important safety instructions to ensure the safe and effective use of this precision tool. Please read and follow all guidelines carefully.

## General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using the chamber reamer.
- Ensure that your workspace is clean and welllit to avoid accidents.
- Keep all tools and equipment out of reach of children and pets.
- Do not use the chamber reamer for purposes other than intended.
- Regularly inspect the reamer for signs of wear or damage before use.
- If you notice any defects, do not use the reamer and contact a qualified technician for evaluation.

## Specific Safety Precautions for Use

- Use the chamber reamer only with compatible firearms and cartridges as specified.
- Follow all manufacturer guidelines for the specific firearm being worked on.
- Avoid applying excessive force while using the reamer; let the tool do the work.
- Ensure that the reamer is properly secured in the drill or machine before starting.
- Do not leave the reamer unattended while in operation.
- Be aware of your surroundings and ensure that bystanders are at a safe distance during use.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials, including the Clymer 300 H&H Magnum Finisher Chamber Reamer, a compatible drill or machine, safety gear, and workbench.
- Review the firearm's manual for any specific instructions related to chamber reaming.

### 2. Installation:

- Insert the reamer into the drill or machine, ensuring it is securely fastened.
- Check that the drive mechanism is correctly aligned and functioning.

### 3. Usage:

- Position the reamer over the chamber to be cut, ensuring proper alignment.
- Start the drill or machine at a low speed to ensure control.
- Gradually increase speed as needed, maintaining a steady and even pressure.
- Monitor the cutting process closely, and stop immediately if any issues arise.
- Once the desired chamber is achieved, carefully remove the reamer and clean any debris.

## Disposal Instructions

- Dispose of any waste material generated during the reaming process according to local regulations.
- Do not dispose of the reamer in regular household waste. Instead, contact a local recycling center or

- hazardous waste disposal facility for proper disposal methods.
- Ensure that the reamer is stored safely until disposal.

## Contact Information for Further Support

For any questions or concerns regarding the Clymer 300 H&H Magnum Finisher Chamber Reamer, please refer to the manufacturer's contact information provided with the product packaging.

## Conclusion

By following these safety instructions, you can ensure the safe and effective use of your Clymer 300 H&H Magnum Finisher Chamber Reamer. Always prioritize safety and consult professionals if you are unsure about any procedures. Thank you for your commitment to safe handling practices.
