

RIMLESS RIFLE CHAMBERING REAMERS - CLYMER 30-06 SPRINGFIELD FINISHING REAMER

[Gunsmith Tools](#) > [Barrel Tools](#) > [Reamers](#) > [Centerfire Reamers](#)

Finest Workmanship & Quality; Made In USA From M-7 High Speed Steel

Made by Clymer, a truly dedicated group of gun people, from best quality, M-7 High-Speed Steel. These are precision tools for the professional gunsmith and will give a lifetime of service when properly cared for. Fully guaranteed.

Roughers are .010" smaller in diameter than the final size, do not cut the throat area and should be used to save wear on the Finish Reamer when many chambers are to be cut. If only a few chambers will be cut, a Finish Reamer is all you need. Superb quality reamers made to SAAMI specifications.

Note: If you do not see the caliber you are looking for below, please feel free to contact our [Special Orders Department](#), as many additional items are available from Clymer.

Safety Instruction Guide for RIMLESS RIFLE CHAMBERING REAMERS CLYMER 3006 SPRINGFIELD FINISHING REAMER

Introduction

Thank you for choosing the Clymer Rimless Rifle Chambering Reamer for your gunsmithing needs. This guide provides important safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document carefully before using the reamer.

General Safety Guidelines

- Ensure all users are trained and knowledgeable about firearms and reaming procedures.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using the reamer.
- Keep the reamer out of reach of children and unauthorized users.
- Do not use the reamer for any purpose other than its intended use.
- Regularly inspect the reamer for damage or wear before each use.
- If the reamer is damaged or shows signs of excessive wear, do not use it and contact a qualified professional for assessment.

Specific Safety Precautions for Use

- Always work in a wellventilated area to avoid inhaling any metal shavings or fumes.
- Ensure that the workpiece is securely clamped or held in place to prevent movement during reaming.
- Use the reamer at the recommended speed and feed rates to avoid overheating and damaging the tool.
- Do not force the reamer through the material; let the tool do the work.
- Be cautious of sharp edges and burrs on the reamer, as they can cause cuts or injuries.
- Avoid wearing loose clothing or jewelry that may get caught in the reaming process.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the work area is clean and organized.
- Gather all necessary tools and equipment, including a drill press or lathe, clamps, and safety gear.

2. Installation:

- Securely mount the reamer in the appropriate chuck or holder.
- Ensure that the reamer is properly aligned with the workpiece to achieve accurate results.

3. Usage:

- Begin reaming at a slow speed, gradually increasing as needed.
- Apply consistent pressure while reaming, ensuring that the tool remains perpendicular to the workpiece.
- Monitor the temperature of the reamer and workpiece; if either becomes excessively hot, stop and allow to cool.
- Clean the reamer regularly to remove metal shavings and debris.

4. PostUse:

- After use, clean the reamer thoroughly to remove any contaminants.
- Store the reamer in a safe, dry place, away from moisture and direct sunlight.
- Regularly check the reamer for signs of wear and replace it if necessary.

Disposal Instructions

- Dispose of the reamer in accordance with local regulations regarding metal waste.
- Do not dispose of the reamer in regular household waste.
- Consider recycling options for metal tools.

Contact Information for Further Support

For any inquiries regarding safety, usage, or maintenance of the Clymer Rimless Rifle Chambering Reamer, please refer to the manufacturer's support resources.

Conclusion

Following these safety instructions will help ensure a safe and effective experience with your Clymer Rimless Rifle Chambering Reamer. Always prioritize safety and proper usage to maximize the lifespan and performance of your tool. Thank you for your attention to these important guidelines.
