

# RIMLESS RIFLE CHAMBERING REAMERS - CLYMER 35 WHELAN FINISHING REAMER

[Gunsmith Tools](#) > [Barrel Tools](#) > [Reamers](#) > [Centerfire Reamers](#)

**Finest Workmanship & Quality; Made In USA From M-7 High Speed Steel**

Made by Clymer, a truly dedicated group of gun people, from best quality, M-7 High-Speed Steel. These are precision tools for the professional gunsmith and will give a lifetime of service when properly cared for. Fully guaranteed.

Roughers are .010" smaller in diameter than the final size, do not cut the throat area and should be used to save wear on the Finish Reamer when many chambers are to be cut. If only a few chambers will be cut, a Finish Reamer is all you need. Superb quality reamers made to SAAMI specifications.

**Note:** If you do not see the caliber you are looking for below, please feel free to contact our [Special Orders Department](#), as many additional items are available from Clymer.

## Attributes

# RIMLESS RIFLE CHAMBERING REAMERS CLYMER 35 WHELAN FINISHING REAMER Safety Instruction Guide

## Introduction

Thank you for choosing the RIMLESS RIFLE CHAMBERING REAMERS CLYMER 35 WHELAN FINISHING REAMER. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this precision tool. Please read this document carefully before use.

## General Safety Guidelines

- Ensure all safety equipment is worn when using this tool, including safety glasses and gloves.
- Keep the work area clean and free from distractions.
- Ensure proper lighting in the workspace to avoid accidents.
- Always handle tools with care and respect.
- Store the reamer in a secure location away from children and unauthorized users.
- Regularly inspect the tool for any signs of damage or wear before use.

## Specific Safety Precautions for Use

- Use the reamer only for its intended purpose: chambering rifle barrels.
- Do not exceed the recommended cutting speed to avoid overheating and damaging the tool.
- Always use the appropriate pilot and follow the manufacturer's recommendations for setup.
- Ensure that the reamer is securely mounted before use.
- Avoid using excessive force; let the tool do the work.
- If the tool becomes stuck or binds, stop immediately and assess the situation before proceeding.
- Do not leave the tool unattended while it is in use.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and safety equipment.
- Ensure that the work area is organized and that you have all required materials.

### 2. Installation:

- Securely attach the reamer to the drill or milling machine as per the manufacturer's instructions.
- Check that the shank is properly seated and that there is no play in the connection.

### 3. Usage:

- Begin with a rougher reamer if multiple chambers are to be cut to reduce wear on the finishing reamer.
- For each chamber, ensure the reamer is aligned correctly before starting the cutting process.
- Apply cutting oil to minimize friction and heat during operation.
- Monitor the reamer's performance throughout the process; if it shows signs of wear, replace it immediately.

## Disposal Instructions

- Dispose of the reamer according to local regulations for metal waste.
- Do not dispose of the reamer in regular household waste.
- Consider recycling options for metal tools to minimize environmental impact.

## Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the manufacturer's contact information provided with your product packaging.

By following these safety instructions, you can ensure the safe and effective use of the RIMLESS RIFLE CHAMBERING REAMERS CLYMER 35 WHELAN FINISHING REAMER. Always prioritize safety and proper handling to extend the life of your tools and ensure a successful outcome in your projects. Thank you for your attention to these important guidelines.
