

PISTOL CHAMBERING REAMERS - CLYMER RIMLESS FINISHER STYLE REAMER FITS .30 LUGER BARREL

[Gunsmith Tools](#) > [Barrel Tools](#) > [Reamers](#) > [Centerfire Reamers](#)

Cut Accurate Chambers For Rimmed, Rimless, & Rimfire Handgun Cartridges

Made by Clymer, a truly dedicated group of gun people, from best quality, M-7 High-Speed Steel. These are precision tools for the professional gunsmith and will give a lifetime of service when properly cared for. Fully guaranteed. Roughers are .010" smaller in diameter than the final size, do not cut the throat area and should be used to save wear on the Finish Reamer when many chambers are to be cut. If only a few chambers will be cut, a Finish Reamer is all you need. Superb quality reamers made to SAAMI specifications.

Rimless Finisher Style Reamer fits .30 Luger Barrel

PISTOL CHAMBERING REAMERS CLYMER RIMLESS FINISHER STYLE REAMER FITS .30 LUGER BARREL

Safety Instruction Guide

Introduction

Thank you for choosing the CLYMER Rimless Finisher Style Reamer designed specifically for .30 Luger barrels. This guide provides important safety instructions and usage information to ensure safe and effective use of the product. Please read this guide carefully before using the reamer.

General Safety Guidelines

- Always ensure that the reamer is in good condition before use. Inspect for any signs of damage or wear.
- Use the reamer only for its intended purpose as specified in this guide.
- Keep the reamer out of reach of children and unauthorized users.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the reamer.
- Ensure your workspace is welllit and free from any hazards that could cause accidents.
- Do not use the reamer if you are tired or under the influence of drugs or alcohol.
- Report any unsafe products or accidents to relevant authorities.

Specific Safety Precautions for Use

- Avoid direct contact with the cutting edges of the reamer. Always handle with care.
- Ensure that the reamer is securely mounted before use to prevent slipping or movement.
- Use a suitable cutting fluid to reduce friction and heat during operation.
- Do not exceed the recommended operating speeds as specified by the manufacturer.
- Keep hands and body clear of the reamer's cutting path at all times.
- If the reamer becomes stuck, do not force it. Stop and assess the situation to prevent damage or injury.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and equipment before starting.
- Ensure that you have the correct pilot diameter based on your barrel type.

2. Installation:

- Secure the reamer into the appropriate holder or machine.
- Ensure that the 7/16" diameter shank is properly fitted and tightened.
- If using a 3/4" round shank for .22 RF, follow the same secure fitting procedures.

3. Usage:

- Start the machine or tool at a low speed to ensure stability.
- Gradually increase the speed as needed, ensuring that the reamer is cutting smoothly.
- Apply consistent pressure without forcing the reamer through the material.
- Regularly check the progress and condition of the reamer during use.

4. PostUse:

- After use, clean the reamer thoroughly to remove any debris or cutting fluid.
- Inspect the reamer for any signs of damage before storing it.
- Store the reamer in a dry and secure location, away from children.

Disposal Instructions

- Dispose of any damaged or worn reamer according to local regulations.
- Do not throw the reamer in regular household waste. Instead, take it to a designated recycling facility or hazardous waste collection point.

Contact Information for Further Support

For any safety inquiries or additional support regarding the CLYMER Rimless Finisher Style Reamer, please refer to the manufacturer's contact information provided on the packaging or product documentation.

Thank you for prioritizing safety while using the CLYMER Rimless Finisher Style Reamer. Your adherence to these guidelines ensures not only your safety but also the longevity of the product.
