

PISTOL CHAMBERING REAMERS - CLYMER RIMMED FINISHER STYLE REAMER FITS .32 H&R MAG CYLINDER

[Gunsmith Tools](#) > [Barrel Tools](#) > [Reamers](#) > [Centerfire Reamers](#)

Cut Accurate Chambers For Rimmed, Rimless, & Rimfire Handgun Cartridges

Made by Clymer, a truly dedicated group of gun people, from best quality, M-7 High-Speed Steel. These are precision tools for the professional gunsmith and will give a lifetime of service when properly cared for. Fully guaranteed. Roughers are .010" smaller in diameter than the final size, do not cut the throat area and should be used to save wear on the Finish Reamer when many chambers are to be cut. If only a few chambers will be cut, a Finish Reamer is all you need. Superb quality reamers made to SAAMI specifications.

Rimmed Finisher Style Reamer fits .32 H&R Mag Cylinder

PISTOL CHAMBERING REAMERS CLYMER RIMMED FINISHER STYLE REAMER USER GUIDE

Introduction

Thank you for choosing the Clymer Rimmed Finisher Style Reamer, designed specifically for use with .32 H&R Mag cylinders. This guide provides important safety instructions and usage information to ensure your safety and the effective operation of the product.

General Safety Guidelines

- Always read and understand all instructions before using the reamer.
- Ensure that the reamer is used in a safe environment, free from distractions.
- Keep the reamer out of reach of children and unauthorized users.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves while using the reamer.
- Inspect the reamer for any damage or wear before each use. Do not use if damaged.
- Follow all local laws and regulations regarding the use of firearms and related tools.

Specific Safety Precautions for Use

- Use the reamer only for its intended purpose: chambering .32 H&R Mag cylinders.
- Do not exceed the recommended torque settings when using the reamer.
- Ensure that the reamer is properly secured in the drill or tool before use.
- Avoid using the reamer in wet or damp conditions to prevent slips and electrical hazards.
- If at any point you feel uncertain about using the reamer, seek guidance from a qualified professional.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before starting.
- Ensure your work area is clean and welllit.

2. Installation:

- Select the appropriate pilot diameter based on your application (Barrel for Single Shot or SemiAuto pistol and rifle barrels; Cylinder for Revolver cylinders).
- Secure the reamer into a compatible drill or tool with the 7/16" diameter shank or 1/4" round shank for .22 RF.

3. Usage:

- Align the reamer with the cylinder to ensure a straight cut.
- Begin drilling at a slow speed, gradually increasing as needed.
- Maintain a steady pressure while reaming to achieve a smooth finish.
- Periodically withdraw the reamer to clear any debris and prevent overheating.

4. PostUse Care:

- Clean the reamer thoroughly after use to remove any residue.
- Store the reamer in a safe, dry place to prevent damage.

Disposal Instructions

- Dispose of the reamer in accordance with local regulations concerning metal and tool disposal.
- If the reamer is damaged beyond repair, consider recycling the materials where possible.

Contact Information for Further Support

For any questions or concerns regarding the use of the Clymer Rimmed Finisher Style Reamer, please consult your retailer or refer to the manufacturer's website for additional resources.

Please ensure that you follow these guidelines to promote safe and effective use of your Clymer Rimmed Finisher Style Reamer. Stay informed about product recalls and safety updates by regularly checking the EU Safety Gate platform. Your safety is our priority.
