

PISTOL CHAMBERING REAMERS - CLYMER RIMMED FINISHER STYLE REAMER FITS .32 H&R MAG BARREL

[Gunsmith Tools](#) > [Barrel Tools](#) > [Reamers](#) > [Centerfire Reamers](#)

Cut Accurate Chambers For Rimmed, Rimless, & Rimfire Handgun Cartridges

Made by Clymer, a truly dedicated group of gun people, from best quality, M-7 High-Speed Steel. These are precision tools for the professional gunsmith and will give a lifetime of service when properly cared for. Fully guaranteed. Roughers are .010" smaller in diameter than the final size, do not cut the throat area and should be used to save wear on the Finish Reamer when many chambers are to be cut. If only a few chambers will be cut, a Finish Reamer is all you need. Superb quality reamers made to SAAMI specifications.

Rimmed Finisher Style Reamer fits .32 H&R Mag Barrel

Safety Instruction Guide for Clymer Rimmed Finisher Style Reamer for .32 H&R Mag Barrel

Introduction

Thank you for choosing the Clymer Rimmed Finisher Style Reamer designed for .32 H&R Mag Barrel applications. This guide provides important safety instructions and guidelines to ensure the safe and effective use of this product. Please read this guide carefully before use, and keep it for future reference.

General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the reamer.
- Ensure the work area is clean, welllit, and free from distractions.
- Keep the reamer and all tools out of reach of children and unauthorized users.
- Do not use the reamer for any purpose other than its intended use as specified in this guide.
- Regularly inspect the reamer for any signs of wear or damage before use. Do not use a damaged reamer.
- Store the reamer in a safe place when not in use to prevent accidental injury.

Specific Safety Precautions for Use

- Use the reamer only with compatible .32 H&R Magnum barrels.
- Ensure the reamer is properly secured in the drill or lathe before use.
- Do not exceed the recommended speed settings for the reamer to prevent overheating and damage.
- Maintain a firm grip on the tool and ensure steady pressure during operation to avoid slipping.
- Be aware of the cutting edges and keep hands and body parts away from the reamer's path.
- If the reamer binds or becomes stuck, stop the operation immediately and assess the situation carefully.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and equipment, including the reamer, drill or lathe, and PPE.
- Ensure the barrel or cylinder is clean and free of debris before starting.

2. Installation:

- Insert the reamer into the drill or lathe chuck securely.
- Adjust the chuck to ensure a tight fit and prevent slippage during operation.

3. Usage:

- Set the drill or lathe to the appropriate speed as recommended for the reamer.
- Begin the reaming process slowly, applying consistent and even pressure.
- Periodically withdraw the reamer to clear any shavings and check progress.
- Once the desired depth is reached, carefully withdraw the reamer from the barrel or cylinder.

4. PostUsage:

- Clean the reamer with a soft cloth to remove any debris or residue.
- Inspect the reamer for any signs of wear or damage after use.

- Store the reamer in a safe and dry location to prevent rust or damage.

Disposal Instructions

- Dispose of any damaged or worn reamers in accordance with local regulations.
- Ensure that all materials used during the reaming process, such as metal shavings, are disposed of safely and responsibly.

Contact Information for Further Support

For any inquiries regarding safety or usage, please consult the manufacturer or authorized distributor. Ensure you have the product details ready for faster assistance.

By following these guidelines and precautions, you can ensure safe and effective use of the Clymer Rimmed Finisher Style Reamer for your .32 H&R Magnum barrel needs. Thank you for your attention to safety.
