## Cut Accurate Chambers For Rimmed, Rimless, & Rimfire Handgun Cartridges

Made by Clymer, a truly dedicated group of gun people, from best quality, M-7 High-Speed Steel. These are precision tools for the professional gunsmith and will give a lifetime of service when properly cared for. Fully guaranteed.

Roughers are .010" smaller in diameter than the final size, do not cut the throat area and should be used to save wear on the Finish Reamer when many chambers are to be cut. If only a few chambers will be cut, a Finish Reamer is all you need. Superb quality reamers made to SAAMI specifications.

**Note:** If you do not see the caliber you are looking for below, please feel free to contact our [Special Orders Department](#), as many additional items are available from Clymer.

# **Safety Instruction Guide for PISTOL CHAMBERING REAMERS RIMMED FINISHER STYLE REAMER FITS .357 MAX BARREL**

## **Introduction**

Thank you for choosing the PISTOL CHAMBERING REAMERS RIMMED FINISHER STYLE REAMER designed to fit .357 Max barrels. This guide provides important safety information and instructions to ensure the safe and effective use of this product. Please read this guide thoroughly before using the reamer.

## **General Safety Guidelines**

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the reamer.
- Ensure that your work area is clean, welllit, and free of any obstructions.
- Keep the reamer out of reach of children and unauthorized users.
- Do not use the reamer for any purpose other than its intended use.
- Regularly inspect the reamer for damage or wear before each use. Do not use if damaged.
- Follow all local laws and regulations regarding the use of firearms and gunsmithing tools.

## **Specific Safety Precautions for Use**

- When using the reamer, maintain a firm grip and control to prevent slipping.
- Do not exceed the recommended cutting speed and pressure to avoid overheating and damaging the tool.
- Use the roughers only for initial cuts; do not use them for final finishing.
- Ensure that the workpiece is securely held in place to prevent movement during reaming.
- Avoid wearing loose clothing or jewelry that could get caught in the machinery.
- If you experience any discomfort or unusual resistance while using the tool, stop immediately and assess the situation.

## **Instructions for Installation and Usage**

### **1. Preparation:**

- Gather all necessary tools and materials before starting.
- Ensure that the workpiece is clean and properly secured in a vise or fixture.

### **2. Installing the Reamer:**

- Select the appropriate reamer based on the chamber size you are cutting.
- Securely attach the reamer to a compatible drill or machine using the 7/16" diameter shank or 1/4" round shank for .22 RF as applicable.

### **3. Using the Reamer:**

- Begin with the rougher reamer if multiple chambers are to be cut. This will reduce wear on the finish reamer.
- Apply light, consistent pressure while reaming. Let the tool do the work—do not force it.
- Monitor the cutting process closely to ensure a smooth operation.
- After achieving the desired depth, remove the reamer slowly and carefully.

#### 4. Finishing:

- If only a few chambers are to be cut, use the finish reamer for final adjustments.
- Clean the reamer and work area after use to remove any debris or residue.

## Disposal Instructions

- Dispose of the reamer in accordance with local regulations regarding metal and tool disposal.
- Do not dispose of the reamer in regular household waste.
- Consider recycling options for metal tools to minimize environmental impact.

## Contact Information for Further Support

For any inquiries regarding safety or product usage, please refer to the EU contact point provided by the manufacturer. Ensure you have the stock number and cartridge caliber ready for reference when seeking assistance.

By following these safety instructions, you can ensure a safe and effective experience while using the PISTOL CHAMBERING REAMERS RIMMED FINISHER STYLE REAMER. Always prioritize safety and adhere to best practices for tools and firearms. Thank you for your attention to these important guidelines.
