

PISTOL CHAMBERING REAMERS - CLYMER RIMMED FINISHER STYLE REAMER FITS .38 S&W SPECIAL CYLINDER

[Gunsmith Tools](#) > [Barrel Tools](#) > [Reamers](#) > [Centerfire Reamers](#)

Cut Accurate Chambers For Rimmed, Rimless, & Rimfire Handgun Cartridges

Made by Clymer, a truly dedicated group of gun people, from best quality, M-7 High-Speed Steel. These are precision tools for the professional gunsmith and will give a lifetime of service when properly cared for. Fully guaranteed. Roughers are .010" smaller in diameter than the final size, do not cut the throat area and should be used to save wear on the Finish Reamer when many chambers are to be cut. If only a few chambers will be cut, a Finish Reamer is all you need. Superb quality reamers made to SAAMI specifications.

Note: If you do not see the caliber you are looking for below, please feel free to contact our [Special Orders Department](#), as many additional items are available from Clymer.

Safety Instruction Guide for PISTOL CHAMBERING REAMERS CLYMER RIMMED FINISHER STYLE REAMER

Introduction

Thank you for choosing the Clymer Rimmed Finisher Style Reamer for .38 S&W Special Cylinder. This guide provides essential safety instructions to ensure the safe and effective use of this precision tool. It is important to follow these guidelines to minimize risks and enhance your experience.

General Safety Guidelines

- Always read and understand the product manual before use.
- Ensure that the reamer is suitable for your specific application and caliber.
- Use the reamer in a well-ventilated area to minimize exposure to dust and debris.
- Wear appropriate personal protective equipment (PPE), including safety goggles and gloves, to protect against potential hazards.
- Keep the work area clean and organized to prevent accidents.
- Store the reamer in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the reamer for signs of wear or damage. Do not use a damaged tool.
- Follow local regulations regarding the handling and use of firearms and related tools.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before beginning any work on the cylinder.
- Use the reamer only for its intended purpose as described in the product specifications.
- Avoid applying excessive force when using the reamer; let the tool do the work.
- Do not attempt to modify or alter the reamer in any way.
- Be cautious of sharp edges and points on the reamer. Handle it with care.
- When using the reamer, maintain a firm grip and stable stance to avoid slips and injuries.
- If you experience any discomfort or pain while using the reamer, stop immediately and assess the situation.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before starting.
- Ensure the reamer is clean and free from debris.

2. Installation:

- Secure the reamer in a suitable drill or lathe, ensuring it is properly aligned.
- Check that the shank is firmly attached to prevent slippage during operation.

3. Usage:

- Begin reaming at a slow speed to ensure accuracy.
- Gradually increase the speed as needed, maintaining control of the tool.
- Monitor the cutting process closely to prevent overheating or excessive wear.
- Use roughers first if multiple chambers are to be cut to prolong the life of the Finish Reamer.
- If only a few chambers are to be cut, use the Finish Reamer directly.

4. PostUse:

- Clean the reamer after use to remove any metal shavings or debris.
- Store the reamer in its protective case or a secure location.

Disposal Instructions

- Dispose of any worn or damaged reamers in accordance with local regulations for tool disposal.
- Do not throw the reamer in regular household waste; consider recycling options if available.
- Ensure that all residues from the reaming process are disposed of safely and responsibly.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product specifications, please refer to the contact details provided with your product packaging or on the manufacturer's website.

By adhering to these safety guidelines, you can ensure a safe and effective experience while using the Clymer Rimmed Finisher Style Reamer. Thank you for prioritizing safety in your firearm maintenance activities.
