## Cut Accurate Chambers For Rimmed, Rimless, & Rimfire Handgun Cartridges

Made by Clymer, a truly dedicated group of gun people, from best quality, M-7 High-Speed Steel. These are precision tools for the professional gunsmith and will give a lifetime of service when properly cared for. Fully guaranteed. Roughers are .010" smaller in diameter than the final size, do not cut the throat area and should be used to save wear on the Finish Reamer when many chambers are to be cut. If only a few chambers will be cut, a Finish Reamer is all you need. Superb quality reamers made to SAAMI specifications.

# PISTOL CHAMBERING REAMERS RIMMED FINISHER STYLE REAMER USER SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the PISTOL CHAMBERING REAMERS RIMMED FINISHER STYLE REAMER FITS .38 SUPER NONTE, manufactured by Clymer. This document provides important safety instructions and guidelines to ensure the safe and effective use of this product. Please read and understand these instructions before use.

## General Safety Guidelines

- Ensure that all safety precautions are followed during the use of this reamer.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves.
- Keep the work area clean and welllit to prevent accidents.
- Store the reamer in a safe location, out of reach of children and unauthorized personnel.
- Regularly inspect the reamer for any signs of wear or damage before use.
- Follow all local laws and regulations regarding firearms and gunsmithing.

## Specific Safety Precautions for Use

- Use the reamer only for its intended purpose: to chamber .38 Super cartridges.
- Do not attempt to modify or alter the reamer in any way.
- Ensure that the reamer is securely attached to the drill or machine before starting.
- Avoid using excessive force when cutting; let the tool do the work to prevent breakage.
- Be cautious of hot metal shavings and chips that may be produced during use.
- Never leave the reamer unattended while in use.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and equipment before starting.
- Ensure the work area is clean and free from distractions.

### 2. Installation:

- Attach the reamer to the appropriate machine (drill or lathe) using the 7/16" dia. shank or ¼" round shank for .22 RF, depending on the application.
- Ensure that the reamer is securely fastened and aligned properly.

### 3. Usage:

- Begin with a rougher reamer if multiple chambers are to be cut. This will save wear on the Finish Reamer.
- Use the Finish Reamer for final cuts, especially if only a few chambers are to be cut.
- Maintain a steady and controlled speed while cutting to prevent overheating and damage.
- After use, clean the reamer to remove any debris or residue.

## Disposal Instructions

- Dispose of the reamer and any associated materials in accordance with local regulations.
- Recycle materials whenever possible, and ensure that hazardous waste is handled appropriately.

## **Contact Information for Further Support**

For any safety inquiries or additional support, please refer to the EUbased contact point provided by the manufacturer. It is important to reach out for assistance if you have any questions or concerns regarding the safe use of this product.

By following these safety instructions, you can help ensure a safe and effective experience when using the PISTOL CHAMBERING REAMERS RIMMED FINISHER STYLE REAMER. Your safety is our priority, and we appreciate your commitment to responsible usage.
