

# THROATING REAMERS - CLYMER 9MM (0.345" PILOT) 2" THROATING REAMER

[Gunsmith Tools](#) > [Barrel Tools](#) > [Reamers](#) > [Throating Reamers](#)

**Finest Workmanship & Quality; Made In USA From M-7 High Speed Steel**

Made by Clymer, a truly dedicated group of gun people, from best quality, M-7 High-Speed Steel. These are precision tools for the professional gunsmith and will give a lifetime of service when properly cared for. Fully guaranteed.

Roughers are .010" smaller in diameter than the final size, do not cut the throat area and should be used to save wear on the Finish Reamer when many chambers are to be cut. If only a few chambers will be cut, a Finish Reamer is all you need.

# Safety Instruction Guide for THROATING REAMERS CLYMER 9MM (0.345" PILOT) 2" THROATING REAMER

## Introduction

Thank you for choosing the THROATING REAMERS CLYMER 9MM (0.345" PILOT) 2" THROATING REAMER. This precision tool is designed for professional gunsmiths and provides a lifetime of service when properly cared for. This guide outlines important safety instructions to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that all safety precautions are followed before using the reamer.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves.
- Keep the work area clean and welllit to avoid accidents.
- Store the reamer in a safe place away from children and unauthorized users.
- Regularly inspect the reamer for any signs of wear or damage before use.
- Follow all local laws and regulations regarding the use of firearms and related tools.

## Specific Safety Precautions for Use

- Do not use the reamer for purposes other than its intended use.
- Avoid using excessive force when operating the reamer to prevent injury or damage to the tool.
- Ensure that the reamer is securely attached to the drilling machine before starting any operation.
- Do not attempt to modify or alter the reamer in any way.
- Be aware of the potential hazards associated with highspeed tools, including flying debris and sharp edges.
- Always keep hands and other body parts away from the cutting area while the reamer is in operation.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials before starting.
- Ensure that the work surface is stable and secure.

### 2. Installation:

- Securely attach the reamer to the drill or machine according to the manufacturer's instructions.
- Make sure that the reamer is properly aligned and tightened to prevent slippage during operation.

### 3. Usage:

- Start the drill or machine at a low speed to ensure proper cutting.
- Gradually increase the speed as needed, but do not exceed the recommended RPM for the reamer.
- Use smooth, even pressure while operating the reamer to achieve the desired cut.
- Monitor the cutting process closely and be ready to stop the machine if any issues arise.

### 4. PostUse Care:

- Once finished, turn off the machine and allow the reamer to cool down.

- Clean the reamer and remove any debris or residue.
- Store the reamer in its designated place to prevent damage.

## Disposal Instructions

- Dispose of the reamer in accordance with local regulations for metal tools.
- Do not dispose of the reamer in regular household waste.
- If the reamer is damaged or no longer usable, consider recycling it at a designated facility.

## Contact Information for Further Support

For any inquiries regarding safety or product issues, please refer to the appropriate EU contact point for assistance.

## Conclusion

By following the safety guidelines and instructions provided in this guide, you can ensure safe and effective use of the THROATING REAMERS CLYMER 9MM (0.345" PILOT) 2" THROATING REAMER. Always prioritize safety and adhere to local regulations when using this tool. Thank you for your attention to these important safety measures.
