

THROATING REAMERS - CLYMER 7MM (0.275" PILOT) 1.5" THROATING REAMER

[Gunsmith Tools](#) > [Barrel Tools](#) > [Reamers](#) > [Throating Reamers](#)

Finest Workmanship & Quality; Made In USA From M-7 High Speed Steel

Made by Clymer, a truly dedicated group of gun people, from best quality, M-7 High-Speed Steel. These are precision tools for the professional gunsmith and will give a lifetime of service when properly cared for. Fully guaranteed.

Roughers are .010" smaller in diameter than the final size, do not cut the throat area and should be used to save wear on the Finish Reamer when many chambers are to be cut. If only a few chambers will be cut, a Finish Reamer is all you need.

THROATING REAMERS CLYMER 7MM Safety Instruction Guide

Introduction

Thank you for choosing the THROATING REAMERS CLYMER 7MM (0.275" PILOT) 1.5" THROATING REAMER. This product is designed for professional gunsmiths and enthusiasts who require precision tools for chambering firearms. It is essential to follow safety guidelines to ensure safe and effective use of this product. This guide provides important safety instructions and information in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Use the tool only for its intended purpose as described in the product specifications.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the reamer.
- Keep the work area clean and welllit to prevent accidents.
- Ensure that the tool is in good condition before use. Inspect for any signs of damage or wear.
- Store the tool in a safe and secure location, out of reach of children and unauthorized users.
- Be aware of your surroundings and ensure that no one is in the immediate area when operating the tool.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the reamer is securely mounted in the appropriate tool holder before use.
- Avoid using excessive force when operating the reamer. Let the tool do the work to prevent damage and ensure precision.
- Do not attempt to modify or alter the reamer in any way, as this could compromise safety and performance.
- Always follow the manufacturer's guidelines for the proper use of the reamer.
- Be cautious of sharp edges and rotating parts to prevent injuries.
- If the reamer becomes stuck or binds during use, stop immediately and assess the situation before proceeding.
- Keep hands and other body parts away from the cutting area while the tool is in operation.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before beginning the installation process.
- Ensure that the work area is clean and organized.

2. Installation:

- Securely mount the THROATING REAMER in the appropriate tool holder or machine.
- Check that the reamer is properly aligned with the workpiece.

3. Usage:

- Begin by slowly engaging the reamer with the workpiece.
- Maintain a steady and controlled feed rate to achieve the desired results.
- Monitor the cutting process closely, ensuring that the reamer is performing as expected.
- After completing the reaming process, carefully remove the tool from the workpiece.

4. PostUsage Care:

- Clean the reamer after use to remove any debris or residue.
- Inspect the tool for any signs of damage or wear and address any issues before storage.

Disposal Instructions

- Dispose of the THROATING REAMER according to local regulations and guidelines for metal tools.
- Do not dispose of the tool in regular household waste.
- Consider recycling the tool if possible, to minimize environmental impact.

Contact Information for Further Support

For any safety inquiries or concerns regarding the THROATING REAMERS CLYMER 7MM, please refer to the product packaging or the manufacturer's website for contact details.

Thank you for prioritizing safety while using this product. Always adhere to the guidelines provided to ensure a safe and effective experience.
