[Gunsmith Tools & Supplies](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER GO HEADSPACE GAUGES The Clymer Go Headspace Gauges are precision tools designed to assist gunsmiths and firearm enthusiasts in verifying the minimum safe chamber dimensions of rifles and shotguns. Proper headspace is crucial for ensuring that a firearm can chamber and fire a cartridge safely, preventing potential malfunctions or safety hazards. These gauges are essential when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers meet minimum safe dimensions, enhancing both safety and performance.

Attributes

- Name: [6MM BR GO GAUGE HEADSPACE GAUGE STEEL](#)

CLYMER GO HEADSPACE GAUGES Safety Instruction Guide

Introduction

Thank you for choosing the Clymer Go Headspace Gauges. These precision tools are designed to assist gunsmiths and firearm enthusiasts in verifying the minimum safe chamber dimensions of rifles and shotguns. Proper use of these gauges is essential for ensuring the safe operation of firearms. This guide provides important safety instructions and guidelines to help you use the product safely and effectively.

General Safety Guidelines

- Always handle firearms with care and respect.
- Ensure that you are familiar with the specific firearm and its operating procedures before using the gauges.
- Use the gauges only for their intended purpose.
- Keep the gauges out of reach of children and unauthorized individuals.
- Regularly inspect the gauges for any signs of wear or damage before use.
- Do not attempt to modify or repair the gauges yourself.
- Always wear appropriate safety gear, such as safety glasses, when working with firearms.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded and pointed in a safe direction before using the gauges.
- Verify that the gauge is clean and free of debris before use.
- Use the gauge according to the manufacturer's instructions to avoid incorrect measurements.
- Do not force the gauge into the chamber; it should fit snugly but not require excessive force.
- If the gauge does not fit properly, do not attempt to chamber a cartridge; consult a qualified gunsmith.
- Be aware of the specific caliber of your firearm and ensure you are using the correct gauge.
- Always check for recalls or safety notices related to the gauges and your firearms.

Instructions for Installation and Usage

1. Preparation

- Ensure your workspace is clean and welllit.
- Gather all necessary tools and safety equipment.

2. Using the Gauge

- Confirm that the firearm is unloaded.
- Select the appropriate Clymer Go Headspace Gauge for your firearm's caliber.
- Insert the gauge into the chamber of the firearm gently.
- Check for proper fit:
 - The gauge should fit snugly without excessive force.
 - If the gauge does not fit, remove it and consult a qualified gunsmith.

3. PostUse Care

- After use, clean the gauge to remove any debris or residue.
- Store the gauge in a safe, dry place, away from children and unauthorized users.

Disposal Instructions

- Dispose of any damaged or worn gauges in accordance with local regulations.
- Do not throw away gauges in regular household waste.
- Consider recycling options if available.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Clymer Go Headspace Gauges, please reach out to the appropriate support channels. Always ensure you have the most up-to-date contact information for assistance.

By following these safety instructions, you can ensure the safe and effective use of your Clymer Go Headspace Gauges. Always prioritize safety when handling firearms and related tools.
