

NO-GO HEADSPACE GAUGES - CLYMER NO GO 6MM BR HEADSPACE GAUGE STEEL

[Gunsmith Tools](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER NO-GO HEADSPACE GAUGES The Clymer No-Go Headspace Gauges are precision tools designed to help gunsmiths and firearm enthusiasts verify that a firearm's chamber does not exceed the maximum safe headspace dimensions. By identifying excessive chamber length, these gauges prevent potential safety hazards such as case ruptures or misfires, ensuring the firearm operates within the specified tolerances. They are essential during the chambering of new barrels, routine maintenance, or when assessing used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer No-Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer No-Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

Attributes

- Name: [CLYMER NO GO 6MM BR HEADSPACE GAUGE STEEL](#)

Safety Instruction Guide for HEADSPACE GAUGES NOGO CLYMER NO GO 6MM BR HEADSPACE GAUGE STEEL

Introduction

Thank you for choosing the HEADSPACE GAUGES NOGO CLYMER NO GO 6MM BR HEADSPACE GAUGE STEEL. This product is designed to help you accurately measure and test the length of the chamber of your rifle. Proper use of this gauge is essential for ensuring a safe and effective chambering process. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Always handle firearms and related tools with care.
- Ensure you are familiar with your firearm and its operation before using this gauge.
- Use the gauge in a safe and controlled environment, free from distractions.
- Regularly inspect the gauge for any signs of wear or damage before use.
- Store the gauge in a secure location, away from children and unauthorized users.
- Follow all local laws and regulations regarding firearms and ammunition.

Specific Safety Precautions for Use

- Always check the headspace before firing a used firearm to prevent accidents.
- Ensure the gauge is properly marked as "Go" or "NoGo" to avoid confusion.
- Only use the gauge for the specified calibers: 6 mm BR Norma, 7 mm BR (Benchrest) Remington, and 22 BR (Benchrest) Remington.
- Do not attempt to modify or alter the gauge in any way.
- If you are unsure about the proper use of the gauge, seek assistance from a qualified gunsmith.
- Always wear appropriate safety gear, such as eye protection, when working with firearms.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and in a safe condition before use.
- Gather all necessary tools and equipment for the measurement process.

2. Using the Gauge:

- Insert the NoGo gauge into the chamber of the rifle.
- Ensure that the gauge fits snugly but does not force it into place.
- If the gauge does not close fully, the headspace is acceptable. If it does close fully, the headspace is too large, and further inspection is required.

3. PostUse:

- Remove the gauge from the chamber carefully.
- Clean the gauge after use to maintain its accuracy and longevity.

Disposal Instructions

- Dispose of the gauge in accordance with local regulations regarding metal products.
- If the gauge is damaged or no longer functional, do not attempt to repair it. Dispose of it responsibly.

Contact Information for Further Support

For any inquiries regarding the safety and use of this product, please reach out to the relevant support channels available in your region. Always ensure that you are following the latest safety guidelines and regulations.

Thank you for your attention to safety. Your careful handling and proper use of the HEADSPACE GAUGES NOGO CLYMER NO GO 6MM BR HEADSPACE GAUGE STEEL will help ensure a safe shooting experience.
