

GO HEADSPACE GAUGES - 22 WRF GO GAUGE HEADSPACE GAUGE STEEL

[Gunsmith Tools & Supplies](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER GO HEADSPACE GAUGES The Clymer Go Headspace Gauges are precision tools designed to assist gunsmiths and firearm enthusiasts in verifying the minimum safe chamber dimensions of rifles and shotguns. Proper headspace is crucial for ensuring that a firearm can chamber and fire a cartridge safely, preventing potential malfunctions or safety hazards. These gauges are essential when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers meet minimum safe dimensions, enhancing both safety and performance.

Clymer Go Headspace Gauges Safety Instruction Guide

Introduction

Thank you for choosing the Clymer Go Headspace Gauges. These precision tools are designed to assist gunsmiths and firearm enthusiasts in verifying the minimum safe chamber dimensions of rifles and shotguns. Proper headspace is crucial for ensuring that a firearm can chamber and fire a cartridge safely, preventing potential malfunctions or safety hazards. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the Clymer Go Headspace Gauges are used only by individuals who are knowledgeable about firearms and gunsmithing practices.
- Always handle firearms with care and follow all safety protocols when using the gauges.
- Keep the gauges out of reach of children and unauthorized users.
- Inspect the gauges before each use to ensure they are free from damage or defects.
- Use the gauges in a welllit and organized workspace to minimize the risk of accidents.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses, when working with firearms.
- Ensure that the firearm is unloaded before using the gauges.
- Do not use the gauges if they show signs of wear or damage; replace them if necessary.
- Follow the manufacturer's instructions for the specific gauge being used.
- Avoid using the gauges in environments where they may be exposed to moisture or extreme temperatures.
- Do not force the gauge into the chamber; it should fit easily without resistance.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools and equipment for the task at hand.

2. Using the Gauge:

- Select the appropriate Clymer Go Headspace Gauge for the caliber of the firearm.
- Insert the gauge into the chamber of the firearm.
- Ensure that the gauge fits snugly but does not require excessive force to insert or remove.
- Check the fit against the bolt or closing mechanism of the firearm to confirm proper headspace.

3. PostUse:

- After use, clean the gauges with a dry cloth to remove any residue or debris.
- Store the gauges in a safe, dry place, away from direct sunlight and moisture.

Disposal Instructions

- Dispose of any damaged or worn gauges in accordance with local regulations.
- Do not dispose of gauges in regular household waste if they are made of metal; check for recycling options in your area.

Contact Information for Further Support

For safety inquiries or further assistance, please contact your local firearms safety authority or consult with a qualified gunsmith. Always ensure you are following the latest safety regulations and guidelines.

By following these safety instructions and guidelines, you can enhance your experience with the Clymer Go Headspace Gauges while ensuring safety and compliance with EU regulations. Thank you for your attention to detail and commitment to safe firearms practices.
