

GO HEADSPACE GAUGES - 22-250 REMINGTON GO GAUGE HEADSPACE GAUGE STEEL

[Gunsmith Tools & Supplies](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER GO HEADSPACE GAUGES The Clymer Go Headspace Gauges are precision tools designed to assist gunsmiths and firearm enthusiasts in verifying the minimum safe chamber dimensions of rifles and shotguns. Proper headspace is crucial for ensuring that a firearm can chamber and fire a cartridge safely, preventing potential malfunctions or safety hazards. These gauges are essential when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers meet minimum safe dimensions, enhancing both safety and performance.

Attributes

- Name: [22-250 REMINGTON GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184100250
- Mfr. No.: G022/250
- Cartridge: 22-250 Remington
- Color: Steel
- Height: 0.405"
- Length: 1.733"
- Material: Steel
- Model Number: 22-250 Remington GO
- Style: Go Gauge
- Weight: 0.1 lbs
- Width: 0.405"
- Delivery weight: 0.023kg
- Shipping height: 18mm
- Shipping width: 20mm
- Shipping length: 56mm

Clymer Go Headspace Gauges Safety Instructions

Introduction

Thank you for choosing the Clymer Go Headspace Gauges. These precision tools are designed to help ensure the safe and effective operation of your firearms. This guide provides essential safety information and instructions for the proper use and maintenance of these gauges, in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that all firearms are unloaded before using the Clymer Go Headspace Gauges.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses, when handling firearms and gauges.
- Keep the gauges out of reach of children and unauthorized users.
- Regularly inspect gauges for signs of wear or damage. Do not use damaged gauges.
- Follow all local laws and regulations regarding firearms and ammunition.

Specific Safety Precautions for Use

- Use the gauge only for its intended purpose: verifying headspace in firearms.
- Avoid using excessive force when inserting the gauge into the chamber. This could damage both the gauge and the firearm.
- Ensure that the gauge is clean and free of debris before use to prevent inaccurate measurements.
- Do not modify or alter the gauge in any way, as this may compromise its accuracy and safety.
- If you are unsure about using the gauge or interpreting the results, consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather necessary tools and safety equipment.

2. Using the Gauge:

- Select the appropriate Clymer Go Headspace Gauge for your firearm's caliber (22250 Remington).
- Insert the gauge into the chamber of the firearm gently.
- Ensure the gauge fits snugly but does not require excessive force to insert.
- Check for proper chambering by attempting to close the bolt on the gauge.
- If the bolt closes easily, the headspace is within acceptable limits. If the bolt does not close, further inspection of the firearm is necessary.

3. PostUse:

- Remove the gauge from the chamber carefully.
- Clean the gauge after each use to maintain accuracy.
- Store the gauge in a safe, dry place away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of the Clymer Go Headspace Gauges responsibly, following local regulations for metal recycling.
- Do not dispose of the gauges in regular household waste.

Contact Information for Further Support

- For any safety inquiries or further assistance, please refer to the manufacturer's contact information provided with the product packaging.

By following these guidelines, you can ensure safe and effective use of the Clymer Go Headspace Gauges. Your safety and the safety of others are paramount. Thank you for your attention to these important instructions.
