

NO-GO HEADSPACE GAUGES - CLYMER NO GO 300 WSM HEADSPACE GAUGE STEEL

[Gunsmith Tools](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER NO-GO HEADSPACE GAUGES The Clymer No-Go Headspace Gauges are precision tools designed to help gunsmiths and firearm enthusiasts verify that a firearm's chamber does not exceed the maximum safe headspace dimensions. By identifying excessive chamber length, these gauges prevent potential safety hazards such as case ruptures or misfires, ensuring the firearm operates within the specified tolerances. They are essential during the chambering of new barrels, routine maintenance, or when assessing used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer No-Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer No-Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

Attributes

- Name: [CLYMER NO GO 300 WSM HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184100264
- Mfr. No.: NG300WSM
- Cartridge: 300 WSM (Winchester Short Mag), 270 WSM (Winchester Short Mag), 325 WSM (Winchester Short Mag), 338 Winchester Magnum
- Colour: Steel
- Height: 0.53"
- Length: 1.885"
- Material: Steel
- Model Number: NO GO 300 WSM
- Style: No Go Gauge
- Weight: 0.2 lbs
- Width: 0.53"
- Delivery weight: 0.045kg
- Shipping height: 18mm
- Shipping width: 18mm

- Shipping length: 56mm

Safety Instruction Guide for HEADSPACE GAUGES NOGO CLYMER NO GO 300 WSM HEADSPACE GAUGE STEEL

Introduction

Thank you for choosing the HEADSPACE GAUGES NOGO CLYMER NO GO 300 WSM HEADSPACE GAUGE STEEL. This product is designed to ensure the safe and accurate measurement of the rifle chamber length when chambering a new barrel or checking a used firearm. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Always ensure that you are using the product in a safe environment.
- Use the gauge only for its intended purpose as described in this guide.
- Keep the gauge out of reach of children and unauthorized users.
- Regularly inspect the gauge for any signs of wear or damage before use.
- If you notice any defects, discontinue use immediately and seek appropriate remedies.
- Always follow local laws and regulations regarding firearm safety and usage.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before measuring headspace.
- Always check the headspace before firing a used gun.
- Use protective eyewear when using the gauge to prevent injury.
- Do not force the gauge into the chamber; it should fit snugly but not require excessive force.
- Maintain a safe distance from others while using the gauge, especially when measuring headspace in a firearm.
- If you are unsure about the measurement process, consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is completely unloaded and pointed in a safe direction.
- Gather all necessary tools and equipment for the measurement process.

2. Using the Gauge:

- Insert the NOGO gauge into the chamber of the firearm.
- Gently push the gauge into the chamber until it stops.
- If the bolt closes on the NOGO gauge, it indicates that the headspace is too long and may be unsafe to fire.
- If the bolt does not close, the headspace is acceptable.
- Remove the gauge from the chamber after the measurement is complete.

3. Cleaning and Maintenance:

- After use, clean the gauge with a soft cloth to remove any debris or oil.
- Store the gauge in a dry place, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any damaged or unusable gauges in accordance with local regulations.
- Do not dispose of the gauge in regular household waste if it is made of metal or contains hazardous materials. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For inquiries regarding safety or product information, please reach out to the designated EU contact point provided with your product packaging or retailer.

Conclusion

By following these safety instructions, you can ensure safe and effective use of the HEADSPACE GAUGES NO GO CLYMER NO GO 300 WSM HEADSPACE GAUGE STEEL. Always prioritize safety and seek professional assistance if you are uncertain about any aspect of using this product. Thank you for your attention to these important safety guidelines.
