[Gunsmith Tools](#) > [Measuring Tools](#) > [Headspace Gauges](#)

## Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER NO-GO HEADSPACE GAUGES The Clymer No-Go Headspace Gauges are precision tools designed to help gunsmiths and firearm enthusiasts verify that a firearm's chamber does not exceed the maximum safe headspace dimensions. By identifying excessive chamber length, these gauges prevent potential safety hazards such as case ruptures or misfires, ensuring the firearm operates within the specified tolerances. They are essential during the chambering of new barrels, routine maintenance, or when assessing used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer No-Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer No-Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

## Attributes

- Name: [CLYMER NO GO 300 SAVAGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184100266
- Mfr. No.: NG300SAV
- Cartridge: 300 Savage
- Colour: Steel
- Height: 0.68"
- Length: 1.25"
- Material: Steel
- Model Number: NO GO 300 Savage
- Style: No Go Gauge
- Weight: 0.02 lbs
- Width: 0.68"
- Delivery weight: 0.036kg
- Shipping height: 18mm
- Shipping width: 18mm
- Shipping length: 58mm

# Safety Instruction Guide for HEADSPACE GAUGES NOGO CLYMER NO GO 300 SAVAGE HEADSPACE GAUGE STEEL

## Introduction

Thank you for choosing the HEADSPACE GAUGES NOGO CLYMER NO GO 300 SAVAGE HEADSPACE GAUGE STEEL. This product is essential for accurately measuring and testing the length of the chamber in your rifle. It is crucial for ensuring a safe and effective chamber when chambering a new barrel or checking a used firearm. This guide provides important safety instructions and guidelines to ensure proper usage and compliance with EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always read and understand all safety instructions before using the product.
- Ensure the gauge is appropriate for the specific caliber and gauge style of your firearm.
- Check the gauge for any signs of wear or damage before each use.
- Keep the gauge out of reach of children and unauthorized users.
- Report any unsafe products or incidents to the appropriate authorities.
- Stay informed about recall updates through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use the gauge only for its intended purpose: measuring headspace in firearms.
- Do not attempt to modify or repair the gauge yourself.
- Always ensure that the firearm is unloaded before using the gauge.
- Wear protective eyewear when using the gauge to prevent injury from any potential debris.
- Follow all manufacturer guidelines for the specific firearm you are using the gauge with.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure the firearm is completely unloaded.
- Gather necessary tools and equipment for the gauge usage.

### 2. Using the Gauge

- Insert the gauge into the chamber of the firearm.
- Ensure that the gauge fits snugly without excessive force.
- If the gauge does not fit, do not force it. This may indicate an issue with the chamber.

### 3. Interpreting Results

- If the gauge indicates "Go," the chamber is within acceptable limits.
- If the gauge indicates "NoGo," the chamber may be too long and should be inspected by a qualified gunsmith.

### 4. After Use

- Remove the gauge from the chamber carefully.
- Clean the gauge to maintain its accuracy and longevity.

- Store the gauge in a safe and dry location, away from children.

## **Disposal Instructions**

- Dispose of the gauge responsibly according to local regulations.
- If the gauge is damaged or no longer usable, do not attempt to repair it. Instead, follow your local waste management guidelines for disposal of metal products.

## **Contact Information for Further Support**

For any inquiries regarding the safety and usage of the HEADSPACE GAUGES NOGO CLYMER NO GO 300 SAVAGE HEADSPACE GAUGE STEEL, please refer to the manufacturer's contact point. Ensure you have the product details and any relevant information ready for assistance.

Thank you for your attention to these safety instructions. Your safety is our priority.
