

NO-GO HEADSPACE GAUGES - NO GO 6.5X55MM SWEDE HEADSPACE GAUGE STEEL

[Gunsmith Tools & Supplies](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER NO-GO HEADSPACE GAUGES The Clymer No-Go Headspace Gauges are precision tools designed to help gunsmiths and firearm enthusiasts verify that a firearm's chamber does not exceed the maximum safe headspace dimensions. By identifying excessive chamber length, these gauges prevent potential safety hazards such as case ruptures or misfires, ensuring the firearm operates within the specified tolerances. They are essential during the chambering of new barrels, routine maintenance, or when assessing used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer No-Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer No-Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

Attributes

- Name: [NO GO 6.5X55MM SWEDE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184100291
- Mfr. No.: NG6.5X55
- Cartridge: 6.5 x 55 mm Swedish Mauser
- Color: Steel
- Height: 0.43"
- Length: 1.952"
- Material: Steel
- Model Number: NO GO 6.5x55mm Swedish Mauser
- Style: No Go Gauge
- Weight: 0.1 lbs
- Width: 0.43"
- Delivery weight: 0.036kg
- Shipping height: 10mm
- Shipping width: 23mm
- Shipping length: 58mm

Clymer NoGo Headspace Gauges Safety Instruction Guide

Introduction

Thank you for choosing the Clymer NoGo Headspace Gauge. This precision tool is designed to help you ensure that your firearm's chamber is within safe operational limits. This guide provides essential safety instructions to help you use the gauge effectively and responsibly.

General Safety Guidelines

- Always handle firearms and gauges with care to prevent accidents.
- Ensure that the gauge is compatible with your firearm's caliber before use.
- Keep the gauge out of the reach of children and unauthorized users.
- Regularly inspect your gauge for any signs of damage or wear before use.
- If you suspect that the gauge may be malfunctioning, do not use it and consult a qualified gunsmith.
- Follow all local laws and regulations regarding firearm maintenance and safety.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when using firearms.
- Do not use the gauge in a manner that is inconsistent with its intended purpose.
- Ensure that the firearm is unloaded and pointed in a safe direction before using the gauge.
- Avoid using excessive force when inserting the gauge into the chamber.
- Be aware of the potential hazards associated with excessive headspace, such as case ruptures or misfires.
- If you experience any unusual resistance when using the gauge, stop immediately and inspect both the gauge and the firearm.

Instructions for Installation and Usage

1. Preparation

- Ensure you are in a safe and controlled environment.
- Gather your tools and ensure that your firearm is unloaded.

2. Using the Gauge

- Insert the Clymer NoGo Headspace Gauge into the chamber of the firearm.
- Gently push the gauge into the chamber until it stops. Do not force it.
- If the gauge fits properly and does not allow the bolt to close, the headspace is within safe limits.
- If the bolt closes on the gauge, this indicates excessive headspace, and the firearm should not be used until it is inspected by a qualified gunsmith.

3. PostUse Care

- Remove the gauge from the chamber carefully.
- Clean the gauge with a soft cloth to remove any debris or residue.
- Store the gauge in a safe and dry place, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of the gauge in accordance with local regulations regarding metal recycling.
- Do not throw the gauge in regular household waste.
- If the gauge is damaged beyond repair, consult local recycling facilities for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding the Clymer NoGo Headspace Gauge, please refer to the manufacturer's contact details provided with the product packaging. Ensure that you have the model number and any relevant information ready for assistance.

Conclusion

By following these safety instructions, you can ensure the safe and effective use of the Clymer NoGo Headspace Gauge. Always prioritize safety and compliance with local regulations when working with firearms. Thank you for your commitment to responsible firearm maintenance.
