## Absolutely Essential For Accurate, Safe, Chamber Work

**CLYMER GO HEADSPACE GAUGES** The Clymer Go Headspace Gauges are precision tools designed to assist gunsmiths and firearm enthusiasts in verifying the minimum safe chamber dimensions of rifles and shotguns. Proper headspace is crucial for ensuring that a firearm can chamber and fire a cartridge safely, preventing potential malfunctions or safety hazards. These gauges are essential when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers meet minimum safe dimensions, enhancing both safety and performance.

## Attributes

- Name: [30-30 WINCHESTER GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184100300
- Mfr. No.: G030/30WCF
- Cartridge: 30-30 Winchester, 219 Zipper Improved, 357 Herrett, 219 Donaldson Wasp, 219 Zipper, 32 Winchester Special, 25-35 Winchester, 7-30 Waters, 30 Herrett, 303 Savage, 307 Winchester, 32-40 Winchester, 356 Winchester

# Clymer Go Headspace Gauges Safety Instruction Guide

## Introduction

Thank you for choosing the Clymer Go Headspace Gauges. These precision tools are designed to assist gunsmiths and firearm enthusiasts in ensuring the safe operation of firearms. This safety instruction guide provides essential information to help you use the product safely and effectively, in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always use the Clymer Go Headspace Gauges according to the manufacturer's instructions.
- Ensure that you are familiar with the firearm you are working on and its specific requirements.
- Keep the gauges out of reach of children and unauthorized users.
- Inspect the gauges regularly for any signs of wear or damage before use.
- Do not use the gauges for any purpose other than intended.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- **Hazard Awareness:** Improper use of the gauges can lead to incorrect headspace measurements, potentially resulting in firearm malfunctions or unsafe firing conditions.
- **Personal Protective Equipment:** Always wear safety glasses and appropriate protective gear while using these tools.
- **Work Environment:** Ensure that your workspace is clean, welllit, and free of hazards that could lead to accidents.
- **Gauge Handling:** Handle the gauges with care. Avoid dropping or mishandling them to maintain their precision.
- **Firearm Compatibility:** Verify that the gauge is compatible with the specific caliber of the firearm you are inspecting.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that the firearm is unloaded and safe to handle before proceeding.
- Gather all necessary tools and materials for your work.

### 2. Using the Gauge:

- Select the appropriate Clymer Go Headspace Gauge for the caliber of your firearm.
- Insert the gauge into the chamber of the firearm.
- Ensure that the gauge fits snugly without excessive force. If it does not fit, do not attempt to chamber a round.
- Check for any discrepancies in headspace measurements as per the firearm's specifications.

### 3. PostUse Care:

- Clean the gauges after each use to prevent corrosion and ensure longevity.
- Store the gauges in a protective case or designated area to avoid damage.

## Disposal Instructions

- Dispose of any damaged or worn gauges in accordance with local regulations for metal recycling.
- Do not dispose of the gauges in regular household waste.

## Contact Information for Further Support

For any inquiries or concerns regarding the Clymer Go Headspace Gauges, please refer to the manufacturer's contact information included in the product packaging or on the official website.

By following these safety guidelines and instructions, you can ensure safe and effective use of the Clymer Go Headspace Gauges. Thank you for prioritizing safety in your gunsmithing practices.
