

GO HEADSPACE GAUGES - 30-40 KRAG GO GAUGE HEADSPACE GAUGE STEEL

[Gunsmith Tools & Supplies](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER GO HEADSPACE GAUGES The Clymer Go Headspace Gauges are precision tools designed to assist gunsmiths and firearm enthusiasts in verifying the minimum safe chamber dimensions of rifles and shotguns. Proper headspace is crucial for ensuring that a firearm can chamber and fire a cartridge safely, preventing potential malfunctions or safety hazards. These gauges are essential when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers meet minimum safe dimensions, enhancing both safety and performance.

Attributes

- Name: [30-40 KRAG GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184100302
- Mfr. No.: GO3040Krag
- Cartridge: 303 British,30-40 Krag
- Color: Steel
- Height: 0.44"
- Length: 0.73"
- Material: Steel
- Model Number: 30-40 Krag GO
- Style: Go Gauge
- Weight: 0.1 lbs
- Width: 0.44"
- Delivery weight: 0.014kg
- Shipping height: 15mm
- Shipping width: 18mm
- Shipping length: 58mm

CLYMER GO HEADSPACE GAUGES Safety Instruction Guide

Introduction

Thank you for choosing the Clymer Go Headspace Gauges. These precision tools are essential for ensuring the safe and effective operation of your firearms. This guide provides important safety instructions and guidelines to help you use the gauges correctly and safely.

General Safety Guidelines

- Always handle firearms and gauges with care. Treat every firearm as if it is loaded.
- Ensure that your workspace is clean and free from any distractions.
- Use the gauges only for their intended purpose: to measure the headspace of firearms.
- Keep the gauges out of reach of children and unauthorized users.
- Inspect the gauges for any damage before each use. Do not use damaged gauges.
- Follow all local laws and regulations regarding firearms and firearm accessories.

Specific Safety Precautions for Use

- **Personal Protective Equipment (PPE):** Always wear appropriate eye protection when using firearms and related tools.
- **Environment:** Use the gauges in a welllit area to ensure accurate readings and safe handling.
- **Gauge Handling:** Hold the gauges by their edges to avoid contamination and preserve accuracy.
- **Calibration:** Ensure that the gauges are calibrated according to manufacturer specifications before use.
- **Avoid Force:** Do not force the gauge into the chamber. If it does not fit easily, stop and check for obstructions or issues with the firearm.
- **Cartridge Compatibility:** Only use the gauges with the specific calibers indicated. Using the wrong gauge can lead to inaccurate measurements and potential safety hazards.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Visually and physically inspect the chamber to confirm it is clear of any obstructions.

2. Using the Gauge:

- Select the appropriate Clymer Go Headspace Gauge for your firearm's caliber.
- Gently insert the gauge into the chamber of the firearm.
- Ensure the gauge is seated fully against the bolt face without applying excessive force.
- Close the bolt carefully. The gauge should allow the bolt to close smoothly if the headspace is within acceptable limits.
- If the bolt does not close or feels excessively tight, do not attempt to force it. This may indicate a headspace issue.

3. PostUse:

- Remove the gauge from the chamber and inspect it for any signs of wear or damage.
- Clean the gauge after use to maintain its accuracy and longevity.
- Store the gauge in a secure location away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any damaged or unusable gauges in accordance with local regulations.
- Do not dispose of gauges in regular household waste. Check for local recycling programs or hazardous waste disposal facilities.

Contact Information for Further Support

For any safety inquiries or additional support regarding the Clymer Go Headspace Gauges, please refer to the manufacturer's website or customer service. It is important to have access to reliable information for safe usage and compliance with regulations.

By following these safety instructions and guidelines, you can ensure that you use the Clymer Go Headspace Gauges effectively and safely. Always prioritize safety and compliance with local laws and regulations when handling firearms and related tools.
