## Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER GO HEADSPACE GAUGES The Clymer Go Headspace Gauges are precision tools designed to assist gunsmiths and firearm enthusiasts in verifying the minimum safe chamber dimensions of rifles and shotguns. Proper headspace is crucial for ensuring that a firearm can chamber and fire a cartridge safely, preventing potential malfunctions or safety hazards. These gauges are essential when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers meet minimum safe dimensions, enhancing both safety and performance.

## Attributes

- Name: [300 REMINGTON ULTRA MAGNUM GO GAUGE HEADSPACE GAUGE STEEL](#)

# Clymer Go Headspace Gauges Safety Instruction Guide

## Introduction

Thank you for choosing the Clymer Go Headspace Gauges. These precision tools are designed to assist gunsmiths and firearm enthusiasts in ensuring the safe chamber dimensions of rifles and shotguns. Proper headspace is crucial for the safe operation of firearms, and this guide provides essential safety instructions to help you use the product effectively and responsibly.

## General Safety Guidelines

- Always handle firearms with care and ensure they are unloaded before using the headspace gauge.
- Keep the headspace gauges out of reach of children and unauthorized individuals.
- Inspect the gauges for any signs of damage before use. Do not use damaged gauges.
- Ensure that you are familiar with the specific firearm for which you are using the gauge.
- Follow all firearm safety protocols and guidelines when working with firearms.

## Specific Safety Precautions for Use

- Use the gauge only for its intended purpose: to measure headspace in rifles and shotguns.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses, when using the gauges.
- Do not force the gauge into the chamber; it should fit snugly without excessive pressure.
- If you encounter resistance when using the gauge, stop and inspect both the gauge and the chamber for issues.
- Store the gauges in a secure location when not in use to prevent accidental damage or misuse.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather the necessary tools and safety equipment.

### 2. Using the Gauge:

- Select the appropriate Clymer Go Headspace Gauge based on the caliber of your firearm.
- Insert the gauge into the chamber of the firearm gently.
- Check for a snug fit. The gauge should not require excessive force to insert or remove.
- If the gauge fits properly, your chamber meets the minimum safety standards. If it does not, consult a qualified gunsmith.

### 3. PostUse:

- Remove the gauge from the chamber and clean it if necessary.
- Store the gauge in its protective case or designated storage area to prevent damage.

## Disposal Instructions

- Dispose of any damaged or unusable gauges according to local regulations for metal waste.
- Do not throw the gauges in regular trash; instead, take them to a designated recycling facility if available.

## **Contact Information for Further Support**

For any safety inquiries or further assistance regarding the Clymer Go Headspace Gauges, please refer to the manufacturer's contact information or your local firearms authority.

By following these safety instructions, you can ensure safe and effective use of the Clymer Go Headspace Gauges. Always prioritize safety and remain vigilant when handling firearms and related tools. Thank you for your attention to these important guidelines.
