

GO HEADSPACE GAUGES - CLYMER 30 M1 CARBINE GO GAUGE HEADSPACE GAUGE STEEL

[Gunsmith Tools](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER GO HEADSPACE GAUGES The Clymer Go Headspace Gauges are precision tools designed to assist gunsmiths and firearm enthusiasts in verifying the minimum safe chamber dimensions of rifles and shotguns. Proper headspace is crucial for ensuring that a firearm can chamber and fire a cartridge safely, preventing potential malfunctions or safety hazards. These gauges are essential when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers meet minimum safe dimensions, enhancing both safety and performance.

Attributes

- Name: [CLYMER 30 M1 CARBINE GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184100350
- Mfr. No.: G030M-1CARB
- Cartridge: 30 Carbine
- Colour: Steel
- Height: 0.335"
- Length: 1.3"
- Material: Steel
- Model Number: 30 M1 Carbine GO
- Style: Go Gauge
- Weight: 0.1 lbs
- Width: 0.335"
- Delivery weight: 0.014kg
- Shipping height: 18mm
- Shipping width: 13mm
- Shipping length: 58mm

HEADSPACE GAUGES GO CLYMER 30 M1 CARBINE GO GAUGE HEADSPACE GAUGE STEEL Safety Instructions

Introduction

Thank you for purchasing the HEADSPACE GAUGES GO CLYMER 30 M1 CARBINE GO GAUGE HEADSPACE GAUGE STEEL. This product is designed to accurately measure and test the length of the chamber of your rifle, ensuring safe and precise functionality. Please read this safety instruction guide carefully to ensure proper use and to understand the safety measures necessary for your protection.

General Safety Guidelines

- Always ensure that the gauge is used in a safe and controlled environment.
- Keep the gauge out of reach of children and vulnerable individuals.
- Inspect the gauge for any visible damage or wear before use.
- Use only as intended, according to the manufacturer's specifications.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Hazard Identification:** Improper use of the gauge can lead to inaccurate measurements, which may result in unsafe firearm operation.
- **Avoiding Hazards:**
 - Always follow the manufacturer's instructions when using the gauge.
 - Ensure that the firearm is unloaded before measuring the headspace.
 - Do not use the gauge if it appears damaged or if it does not fit properly in the chamber.
 - Store the gauge in a safe place to prevent accidental injury.

Instructions for Installation and Usage

1. Preparation:

- Ensure that you have a clear workspace.
- Gather all necessary tools and equipment.

2. Using the Gauge:

- Ensure the firearm is completely unloaded and pointed in a safe direction.
- Insert the Go Gauge into the chamber of the firearm.
- Gently close the bolt to check for proper fit. The bolt should close without excessive force.
- If the bolt does not close, the chamber may be too short, and further inspection is required.
- If the bolt closes easily, the headspace is acceptable.
- Repeat the process with the NoGo Gauge to ensure safety.

3. PostUsage:

- Clean the gauge after use to maintain its condition.
- Store the gauge in a protective case to prevent damage.

Disposal Instructions

- Dispose of the gauge according to local regulations for metal waste.
- Ensure that any packaging materials are recycled or disposed of responsibly.

Contact Information for Further Support

For any inquiries regarding safety, usage, or other concerns, please refer to the manufacturer's contact information provided with your product.

By following these safety instructions, you can ensure the safe and effective use of your HEADSPACE GAUGES GO CLYMER 30 M1 CARBINE GO GAUGE HEADSPACE GAUGE STEEL. Always prioritize safety when handling firearms and related equipment. Thank you for your attention to these important safety guidelines.
