[Gunsmith Tools](#) > [Measuring Tools](#) > [Headspace Gauges](#)

## Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER NO-GO HEADSPACE GAUGES The Clymer No-Go Headspace Gauges are precision tools designed to help gunsmiths and firearm enthusiasts verify that a firearm's chamber does not exceed the maximum safe headspace dimensions. By identifying excessive chamber length, these gauges prevent potential safety hazards such as case ruptures or misfires, ensuring the firearm operates within the specified tolerances. They are essential during the chambering of new barrels, routine maintenance, or when assessing used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer No-Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer No-Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers are within safe operational limits, enhancing both safety and performance.

## Attributes

- Name: [CLYMER NO GO 30 M1 CARBINE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184100351
- Mfr. No.: NG30M-1
- Cartridge: 30 Carbine
- Colour: Steel
- Height: 0.335"
- Length: 1.3"
- Material: Steel
- Model Number: NO GO 30 M1 Carbine
- Style: No Go Gauge
- Weight: 0.1 lbs
- Width: 0.335"
- Delivery weight: 0.014kg
- Shipping height: 13mm
- Shipping width: 18mm
- Shipping length: 58mm

# HEADSPACE GAUGES NOGO CLYMER NO GO 30 M1 CARBINE HEADSPACE GAUGE STEEL

## Introduction

Thank you for choosing the Clymer NoGo Headspace Gauge for your firearm. This guide provides essential safety instructions and information to ensure the safe and effective use of the gauge. Please read this document carefully before using the product.

## General Safety Guidelines

- Ensure the gauge is used only by individuals who are familiar with firearm safety and handling.
- Always check the gauge for any signs of damage or wear before use.
- Keep the gauge out of reach of children and unauthorized persons.
- Use the gauge in a welllit and safe environment.
- Always follow the manufacturer's instructions for use and maintenance.
- Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

### • Potential Hazards:

- Misuse of the gauge can lead to improper chambering, which may result in firearm malfunction or injury.
- Using a damaged gauge can provide inaccurate measurements, leading to unsafe conditions.

### • Avoiding Hazards:

- Always inspect the gauge before each use for any signs of damage, such as cracks or bends.
- Do not attempt to modify the gauge in any way.
- Ensure the gauge is compatible with your firearm's caliber before use.
- Follow all safety protocols for handling firearms when using the gauge.

### • Age Specific Warnings:

- This product is intended for use by adults or under the supervision of a qualified adult.
- Ensure that anyone using the gauge understands the importance of firearm safety.

## Instructions for Installation and Usage

### • Installation:

- The gauge does not require installation. It is ready for use upon purchase.
- Ensure that the gauge is clean and free of debris before use.

### • Usage Instructions:

- Confirm that your firearm is unloaded.
- Insert the NoGo gauge into the chamber of the rifle.
- If the gauge does not fully chamber, the headspace is acceptable.
- If the gauge chambers fully, it indicates that the headspace is excessive and should be addressed before using the firearm.
- Always refer to the firearm's manual for specific headspace requirements.

## Disposal Instructions

- Dispose of the gauge responsibly. If the gauge is damaged or no longer in use, it should be recycled or disposed of according to local regulations.
- Do not dispose of the gauge in regular household waste.

## Contact Information for Further Support

For any questions or concerns regarding the use of the Clymer NoGo Headspace Gauge, please contact the appropriate support channels. Ensure you have the product information available for reference.

By adhering to these guidelines, you can help ensure your safety and the proper functioning of your firearm. Always prioritize safety when handling firearms and related tools.
