

GO HEADSPACE GAUGES - CLYMER 357 MAGNUM GO GAUGE HEADSPACE GAUGE STEEL

[Gunsmith Tools](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER GO HEADSPACE GAUGES The Clymer Go Headspace Gauges are precision tools designed to assist gunsmiths and firearm enthusiasts in verifying the minimum safe chamber dimensions of rifles and shotguns. Proper headspace is crucial for ensuring that a firearm can chamber and fire a cartridge safely, preventing potential malfunctions or safety hazards. These gauges are essential when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers meet minimum safe dimensions, enhancing both safety and performance.

Attributes

HEADSPACE GAUGES GO CLYMER 357 MAGNUM GO GAUGE HEADSPACE GAUGE STEEL Safety Instructions

Introduction

Thank you for choosing the Go Clymer 357 Magnum Go Gauge Headspace Gauge Steel. This product is designed to help you accurately measure and test the length of the chamber in your rifle. Proper use of this gauge is essential for ensuring a safe and effective shooting experience. This guide provides important safety instructions and general guidelines to help you use the product safely and effectively.

General Safety Guidelines

- Always ensure that the firearm is unloaded before using the gauge.
- Familiarize yourself with the gauge and its functions before use.
- Use the gauge only for its intended purpose, which is to measure headspace in firearms.
- Keep the gauge out of reach of children and unauthorized users.
- Regularly inspect the gauge for signs of damage or wear. Do not use if damaged.
- Ensure that the gauge is used in a welllit area to avoid errors in measurement.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Always check the headspace before firing a used gun to ensure safety.
- When chambering a new barrel, use the gauge to verify a tight and accurate chamber.
- Be aware that gauges are marked with “Go” or “NoGo” indicators. Use the correct gauge for your firearm.
- Avoid using the gauge with cartridges that are not listed in the product specifications.
- Store the gauge in a protective case to prevent damage and ensure longevity.
- Do not attempt to modify or alter the gauge in any way.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is completely unloaded.
- Gather all necessary tools and the gauge.

2. Measuring Headspace:

- Insert the Go gauge into the chamber of the firearm.
- Gently close the bolt on the gauge. It should close fully without resistance.
- If the bolt does not close or is difficult to close, the headspace is too short.
- Remove the Go gauge and insert the NoGo gauge.
- Close the bolt on the NoGo gauge. The bolt should not close fully. If it does, the headspace is too long.

3. PostUse:

- After measurement, clean the gauge to remove any debris or residue.
- Store the gauge in a safe and dry location.

Disposal Instructions

- Dispose of the gauge in accordance with local regulations.
- If the gauge is damaged beyond use, consider recycling any metal components where applicable.
- Do not dispose of the gauge in regular household waste.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Go Clymer 357 Magnum Go Gauge Headspace Gauge Steel, please reach out to the appropriate authorities or consult with a qualified firearms expert.

Conclusion

Following these safety instructions will help ensure a safe and effective experience when using the Go Clymer 357 Magnum Go Gauge Headspace Gauge Steel. Always prioritize safety and adhere to the guidelines provided. Thank you for your attention to these important details.
