

GO HEADSPACE GAUGES - 40 S&W GO GAUGE HEADSPACE GAUGE STEEL

[Gunsmith Tools & Supplies](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER GO HEADSPACE GAUGES The Clymer Go Headspace Gauges are precision tools designed to assist gunsmiths and firearm enthusiasts in verifying the minimum safe chamber dimensions of rifles and shotguns. Proper headspace is crucial for ensuring that a firearm can chamber and fire a cartridge safely, preventing potential malfunctions or safety hazards. These gauges are essential when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers meet minimum safe dimensions, enhancing both safety and performance.

Attributes

- Name: [40 S&W GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184100400
- Mfr. No.: G040SW
- Cartridge: 40 S&W
- Color: Steel
- Height: 0.42"
- Length: 0.873"
- Material: Steel
- Model Number: 40 S&W GO
- Style: Go Gauge
- Weight: 0.1 lbs
- Width: 0.42"
- Delivery weight: 0.014kg
- Shipping height: 18mm
- Shipping width: 18mm
- Shipping length: 58mm

Clymer Go Headspace Gauges Safety Instruction Guide

Introduction

The Clymer Go Headspace Gauges are precision tools designed for gunsmiths and firearm enthusiasts to ensure the safe chamber dimensions of firearms. Proper headspace is essential for the safe operation of firearms, reducing the risk of malfunctions and safety hazards. This safety instruction guide provides essential information to ensure the safe use of the Clymer Go Headspace Gauges in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that you are familiar with the proper use of headspace gauges before attempting to use them.
- Always wear appropriate safety gear, including safety glasses, when working with firearms and related tools.
- Keep the gauges out of reach of children and unauthorized users.
- Inspect the gauges for damage or wear before each use. Do not use damaged gauges.
- Store the gauges in a safe, dry place to prevent rust and damage.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the gauges only for their intended purpose as specified in the product documentation.
- Ensure that the firearm is unloaded and pointed in a safe direction before using the gauge.
- Follow the manufacturer's instructions for the specific gauge being used.
- Do not force the gauge into the chamber; it should fit snugly without excessive pressure.
- If you encounter resistance when using the gauge, stop and inspect the chamber for obstructions or damage.
- Be aware of the specific caliber of the gauge you are using and ensure it matches the firearm's specifications.
- Do not modify the gauge in any way, as this can lead to inaccurate measurements and unsafe conditions.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and safely stored.
- Gather all necessary tools and materials, including the Clymer Go Headspace Gauge.

2. Using the Gauge:

- Select the appropriate gauge based on the caliber of your firearm.
- Insert the gauge into the chamber of the firearm gently.
- Ensure that the gauge is seated properly. It should fit without excessive force.
- Check for a flush fit with the bolt closed. If the bolt does not close fully, the headspace is too short.
- If the gauge fits and the bolt closes, the headspace is within acceptable limits.

3. PostUse:

- Remove the gauge from the chamber and inspect it for any signs of wear or damage.
- Clean the gauge if necessary, following the manufacturer's recommendations.
- Store the gauge in its designated case or holder to prevent damage.

Disposal Instructions

- Dispose of any damaged or worn gauges in accordance with local regulations.
- Do not dispose of the gauges in regular household waste. Check for designated disposal sites or recycling programs for metal tools and equipment.

Contact Information for Further Support

For any safety inquiries or additional support regarding the Clymer Go Headspace Gauges, please refer to the product documentation or contact the manufacturer directly.

By following these safety instructions and guidelines, you can ensure the safe and effective use of the Clymer Go Headspace Gauges, enhancing both your safety and the performance of your firearms.
