

GO HEADSPACE GAUGES - 45 ACP GO GAUGE HEADSPACE GAUGE STEEL

[Gunsmith Tools & Supplies](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER GO HEADSPACE GAUGES The Clymer Go Headspace Gauges are precision tools designed to assist gunsmiths and firearm enthusiasts in verifying the minimum safe chamber dimensions of rifles and shotguns. Proper headspace is crucial for ensuring that a firearm can chamber and fire a cartridge safely, preventing potential malfunctions or safety hazards. These gauges are essential when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers meet minimum safe dimensions, enhancing both safety and performance.

Attributes

- Name: [45 ACP GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)

CLYMER GO HEADSPACE GAUGES Safety Instruction Guide

Introduction

Thank you for choosing the Clymer Go Headspace Gauges. These precision tools are designed to assist gunsmiths and firearm enthusiasts in verifying the minimum safe chamber dimensions of firearms. Proper headspace is essential for ensuring the safe operation of your firearm, preventing malfunctions, and enhancing overall safety during use. This guide provides comprehensive safety instructions to ensure the safe and effective use of your headspace gauges in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that you read and understand all instructions before using the Clymer Go Headspace Gauges.
- Always handle the gauges with care to avoid damage and ensure accurate measurements.
- Keep the gauges out of reach of children and individuals who may not understand their use.
- Regularly inspect the gauges for wear and tear or damage before each use.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform to stay informed about product safety.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety glasses, when using the gauges.
- Do not use the gauges if they are damaged or show signs of excessive wear.
- Ensure that the firearm is unloaded before using the gauges for measurements.
- Follow the manufacturer's guidelines for the specific caliber when selecting the appropriate gauge.
- Avoid using the gauges in environments with high humidity or extreme temperatures, as this may affect their accuracy.
- Do not attempt to modify or alter the gauges, as this may compromise their safety and effectiveness.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and ensure that your workspace is clean and organized.
- Familiarize yourself with the specific gauge you will be using based on the caliber of your firearm.

2. Using the Gauge:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Insert the Clymer Go Headspace Gauge into the chamber of the firearm.
- Gently close the bolt to check for proper headspace. The gauge should fit correctly without excessive force.
- If the gauge does not fit, consult a qualified gunsmith to assess the firearm's chamber dimensions.

3. PostUse Care:

- After use, clean the gauges with a soft cloth to remove any debris or residue.
- Store the gauges in a protective case to prevent damage and ensure longevity.

Disposal Instructions

- Dispose of the Clymer Go Headspace Gauges in accordance with local regulations regarding metal recycling.
- If the gauges are damaged beyond repair, contact your local waste management service for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding the Clymer Go Headspace Gauges or safety concerns, please refer to the product packaging for contact details. It is important to have a local EUbased contact for any safetyrelated questions or issues.

By following these safety instructions, you can ensure a safe and effective experience with your Clymer Go Headspace Gauges. Always prioritize safety and proper handling to maintain the integrity of your firearms and enhance your overall shooting experience.
