

GO HEADSPACE GAUGES - 20 GAUGE GO GAUGE HEADSPACE GAUGE STEEL

[Gunsmith Tools & Supplies](#) > [Measuring Tools](#) > [Headspace Gauges](#)

Absolutely Essential For Accurate, Safe, Chamber Work

CLYMER GO HEADSPACE GAUGES The Clymer Go Headspace Gauges are precision tools designed to assist gunsmiths and firearm enthusiasts in verifying the minimum safe chamber dimensions of rifles and shotguns. Proper headspace is crucial for ensuring that a firearm can chamber and fire a cartridge safely, preventing potential malfunctions or safety hazards. These gauges are essential when chambering new barrels, performing routine maintenance, or evaluating used firearms for purchase. Key Features: Precision Machining: Each gauge is crafted from high-quality steel and machined to exact SAAMI specifications, ensuring accurate and reliable measurements. Caliber Specificity: Available in a wide range of calibers, these gauges cater to various firearm types, providing versatility for gunsmiths working with multiple platforms. Durable Construction: Built to withstand repeated use, the hardened steel construction ensures longevity and consistent performance in demanding workshop environments. Specifications: Material: Hardened steel Dimensions: Size varies with caliber and gauge style Compliance: Manufactured to SAAMI specifications Customer Insights: Customers value the Clymer Go Headspace Gauges for their precision and reliability. The accurate machining and adherence to industry standards provide confidence during firearm assembly and inspection processes. Users appreciate the wide range of available calibers, allowing them to select the appropriate gauge for their specific needs. The durable construction is frequently highlighted, with many noting that the gauges maintain their accuracy even after extensive use. Incorporating the Clymer Go Headspace Gauges into your gunsmithing toolkit ensures that your firearm chambers meet minimum safe dimensions, enhancing both safety and performance.

Attributes

- Name: [20 GAUGE GO GAUGE HEADSPACE GAUGE STEEL](#)
- Manufacturer: [CLYMER](#)
- Product no.: 184110200
- Mfr. No.: G020
- Cartridge: 20 Gauge
- Color: Steel
- Height: 0.68"
- Length: 1.25"
- Material: Steel
- Model Number: 20 Gauge Go
- Style: Go Gauge
- Weight: 0.2 lbs
- Width: 0.68"
- Delivery weight: 0.068kg
- Shipping height: 28mm
- Shipping width: 28mm
- Shipping length: 66mm

CLYMER GO HEADSPACE GAUGES Safety Instruction Guide

Introduction

The Clymer Go Headspace Gauges are precision tools designed to assist gunsmiths and firearm enthusiasts in verifying the minimum safe chamber dimensions of rifles and shotguns. Proper headspace is crucial for ensuring that a firearm can chamber and fire a cartridge safely, preventing potential malfunctions or safety hazards. This safety instruction guide provides essential information to ensure the safe use of these gauges in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand the user manual before using the Clymer Go Headspace Gauges.
- Ensure that the gauges are used only for their intended purpose, which is to measure headspace in firearms.
- Keep the gauges out of reach of children and unauthorized users.
- Inspect the gauges for any signs of damage or wear before each use. Do not use damaged gauges.
- Store the gauges in a safe and secure location when not in use to prevent accidental damage or misuse.
- Report any unsafe conditions or accidents involving the gauges to the relevant authorities.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before using the gauges.
- Always wear appropriate safety gear, such as safety glasses, when working with firearms.
- Follow all local laws and regulations regarding firearms and ammunition.
- Use the gauges in a welllit and organized workspace to reduce the risk of accidents.
- Do not attempt to modify or alter the gauges in any way, as this may compromise their accuracy and safety.
- Be aware of your surroundings and ensure that no one is in the line of fire when using the gauges.
- Do not use the gauges if you are tired or under the influence of substances that may impair your judgment.

Instructions for Installation and Usage

1. Preparation

- Ensure that the firearm is completely unloaded and pointed in a safe direction.
- Gather all necessary tools and safety equipment.

2. Using the Gauge

- Select the appropriate Clymer Go Headspace Gauge for the specific caliber of the firearm.
- Insert the gauge into the chamber of the firearm according to the manufacturer's instructions.
- Ensure that the gauge fits snugly and does not require excessive force to insert or remove.
- Check the fit of the gauge against the bolt or breech to verify that the headspace is within safe limits.

3. PostUse

- Remove the gauge from the chamber after use, ensuring that no debris or residue is left behind.
- Clean the gauge with a soft cloth to remove any dirt or contaminants.
- Store the gauge in its protective case or designated storage area.

Disposal Instructions

- Dispose of any damaged or worn gauges in accordance with local regulations regarding metal waste.
- Do not throw gauges in regular household trash.
- Consider recycling options available in your area to minimize environmental impact.

Contact Information for Further Support

For any inquiries or concerns regarding the Clymer Go Headspace Gauges, please refer to the manufacturer's contact information provided separately. It is important to have access to support for safety inquiries and product information.

Note: This guide is intended to provide essential safety information and should be kept with the product for easy reference. Always prioritize safety and compliance with local laws when using firearms and associated tools.
