Introduction

Thank you for choosing the SHOTGUN RIM CUTTER & HEADSPACE RING RIM CUTTER. This product is designed to assist in the maintenance of shotgun chambers by removing damaged metal from rimrecess areas. It is essential to follow the safety instructions and guidelines outlined in this document to ensure safe and effective use of the product.

General Safety Guidelines

- Always read and understand the safety instructions before using the product.
- Ensure that the product is used only for its intended purpose as described in this manual.
- Keep the product out of reach of children and unauthorized users.
- Inspect the product for any damage or wear before each use. Do not use if damaged.
- Use appropriate personal protective equipment (PPE), including safety goggles and gloves, when operating the cutter.
- Be aware of your surroundings and ensure that no one is in the vicinity when using the cutter.
- Follow all local regulations and guidelines regarding the use of tools and equipment.

Specific Safety Precautions for Use

- Ensure that the shotgun is unloaded and pointed in a safe direction before beginning any work.
- Do not apply excessive force when using the cutter, as this may lead to injury or damage to the product.
- Always use the cutter on a stable surface to prevent slipping or movement during operation.
- Avoid wearing loose clothing or jewelry that may become entangled in the cutter.
- If you experience any discomfort or pain while using the product, stop immediately and seek assistance.
- Do not modify the cutter or use any attachments that are not recommended by the manufacturer.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and PPE before starting.
- Ensure the work area is clean and free of obstructions.

2. Installation:

- Secure the cutter in a stable position, ensuring it is firmly attached to a work surface.
- If applicable, install the bronze pilot bushing as per the manufacturer's instructions.

3. Using the Cutter:

- Position the cutter over the damaged rimrecess area of the shotgun chamber.
- Gently rotate the cutter to begin the cutting process. Do not apply excessive pressure.
- Monitor the cutting process closely to ensure even removal of material.
- Once the damaged area has been removed, inspect the rim for any remaining imperfections.

4. Postusage:

- Clean the cutter and work area after use to prevent the accumulation of debris.
- Store the cutter in a safe place, away from moisture and direct sunlight.

Disposal Instructions

- Dispose of any metal shavings or debris generated during the cutting process in accordance with local waste disposal regulations.
- When the product reaches the end of its life or is no longer usable, dispose of it in a manner that complies with local environmental regulations.
