

C&S BROWNING HI-POWER TRIGGER PULL REDUCTION SPRING KIT - CYLINDER & SLIDE #25-A SPRING KIT

[Handgun Parts](#) > [Trigger Group Parts](#) > [Performance Enhancing Kits](#)

Reduces Pull Weight For A Light, Crisp Trigger Pull

Competition trigger pull spring kits reduce the pull weight of heavy factory triggers by approximately 2½ lbs. for a much improved trigger pull and better accuracy. #25A fits all pre-'91 Browning Hi-Power pistols, and includes (1) 22 lb. hammer spring, (1) reduced power trigger return spring, and (1) reduced power firing pin spring. #25B fits 1991 and later Hi-Power pistols, and includes (1) 22 lb. hammer spring and (1) reduced power firing pin spring.

C&S Browning HiPower Trigger Pull Reduction Spring Kit Safety Instructions

Introduction

Thank you for choosing the C&S Browning HiPower Trigger Pull Reduction Spring Kit. This kit is designed to improve the trigger pull weight of your Browning HiPower pistol for enhanced performance and accuracy. It is essential to follow safety guidelines to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always handle firearms with care and follow standard firearm safety practices.
- Keep the product out of reach of children and unauthorized users.
- Inspect the product for any visible damage before installation and use.
- Regularly check for updates regarding product recalls or safety notices.

Specific Safety Precautions for Use

- Use only the specified springs included in the kit for your model of Browning HiPower pistol.
- Do not attempt to modify or alter the springs in any way.
- Ensure that your firearm is unloaded before starting any installation or modification process.
- Wear appropriate safety gear, such as safety glasses, when handling springs and firearms.
- Be aware of the potential for increased trigger sensitivity after installation. Exercise caution when handling your firearm.

Instructions for Installation and Usage

1. Preparation:

- Ensure your firearm is completely unloaded.
- Gather necessary tools such as a screwdriver and a punch tool.

2. Installation of #25A:

- Remove the grip panels of your Browning HiPower pistol.
- Remove the original hammer spring and replace it with the included 22 lb. hammer spring.
- Replace the original trigger return spring with the reduced power trigger return spring.
- Replace the firing pin spring with the reduced power firing pin spring.
- Reassemble the grip panels securely.

3. Installation of #25B (for 1991 and later models):

- Follow the same steps as above for grip panel removal.
- Replace the original hammer spring with the included 22 lb. hammer spring.
- Replace the firing pin spring with the reduced power firing pin spring.
- Reassemble the grip panels securely.

4. PostInstallation Check:

- Ensure all components are properly installed and seated.
- Conduct a function check of the firearm to ensure proper operation.

- Store your firearm safely and securely after installation.

Disposal Instructions

- Dispose of any old springs and packaging materials in accordance with local regulations.
- Do not dispose of springs in a manner that may pose a hazard to others.

Contact Information for Further Support

For any safety inquiries or concerns regarding the C&S Browning HiPower Trigger Pull Reduction Spring Kit, please refer to the EUbased contact point provided with your product.

Thank you for prioritizing safety and performance with your C&S Browning HiPower Trigger Pull Reduction Spring Kit. Enjoy improved accuracy and trigger control responsibly.
