

C&S BROWNING HI-POWER TRIGGER PULL REDUCTION SPRING KIT - CYLINDER & SLIDE #25-B SPRING KIT

[Handgun Parts](#) > [Trigger Group Parts](#) > [Performance Enhancing Kits](#)

Reduces Pull Weight For A Light, Crisp Trigger Pull

Competition trigger pull spring kits reduce the pull weight of heavy factory triggers by approximately 2½ lbs. for a much improved trigger pull and better accuracy. #25A fits all pre-'91 Browning Hi-Power pistols, and includes (1) 22 lb. hammer spring, (1) reduced power trigger return spring, and (1) reduced power firing pin spring. #25B fits 1991 and later Hi-Power pistols, and includes (1) 22 lb. hammer spring and (1) reduced power firing pin spring.

C&S Browning HiPower Trigger Pull Reduction Spring Kit Safety Instruction Guide

Introduction

Thank you for choosing the C&S Browning HiPower Trigger Pull Reduction Spring Kit. This guide provides essential safety instructions and information to ensure the safe and effective use of this product. Please read this guide thoroughly before installation or use.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Always follow the manufacturer's instructions for installation and usage.
- Regularly inspect the product for signs of wear or damage.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use this product only with Browning HiPower pistols as specified in the product description.
- Do not exceed the recommended specifications for spring tension to avoid malfunctions.
- Ensure that the firearm is unloaded before starting the installation process.
- Wear appropriate safety gear, including eye protection, when handling firearms and components.
- Be aware of your surroundings and ensure you are in a safe environment when using the firearm.
- If you are unsure about the installation or use of this product, seek assistance from a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is completely unloaded.
- Gather necessary tools, including a screwdriver and any other tools specified in your firearm's manual.

2. Installation:

- For #25A Spring Kit:
 - Remove the existing hammer spring, trigger return spring, and firing pin spring from your pre'91 Browning HiPower pistol.
 - Install the new 22 lb. hammer spring, reduced power trigger return spring, and reduced power firing pin spring.
- For #25B Spring Kit:
 - Remove the existing hammer spring and firing pin spring from your 1991 or later Browning HiPower pistol.
 - Install the new 22 lb. hammer spring and reduced power firing pin spring.
- Ensure all springs are seated correctly and securely.

3. PostInstallation Check:

- After installation, perform a function check of the firearm to ensure proper operation.
- Test the trigger pull to confirm the weight reduction is as expected.
- If any issues are detected, consult a qualified gunsmith before using the firearm.

4. Usage:

- Always follow safe handling practices when using your Browning HiPower pistol.
- Be aware of the reduced trigger pull weight and practice accordingly to maintain accuracy and control.

Disposal Instructions

- Dispose of any old springs and components in accordance with local regulations.
- Do not dispose of in general waste; check for local recycling or hazardous waste disposal options.

Contact Information for Further Support

For any questions or concerns regarding the C&S Browning HiPower Trigger Pull Reduction Spring Kit, please refer to the manufacturer's contact information provided with the product or on their website.

Stay safe and enjoy improved performance with your Browning HiPower pistol.
