Ultra-Crisp Trigger, Glass Smooth Break

Bringing a wealth of knowledge and experience from its presence in the aftermarket for AR-15 triggers, CMC Triggers entered the handgun market with a modified trigger unit for one of the world's most-popular handgun designs: the Glock. Each CMC Glock Replacement Trigger provides owners with a drop-in unit designed to instantaneously enhance the performance of their gun's trigger. The CMC Triggers Glock Replacement Trigger is a complete unit that features OEM internals, including a Glock OEM trigger bar, springs and housing. However, the design features a flat-faced trigger shoe with a hooked bottom that reduces pull weight by two pounds over the OEM design. The trigger is constructed from a combination of 8620 alloy steel and S7 tool steel and features a positive trigger reset.

Introduction

Thank you for choosing the DROPIN TRIGGER KIT FOR GLOCK CMC TRIGGERS. This guide is designed to provide you with essential safety information, installation instructions, and usage guidelines to ensure safe and effective operation of your trigger kit. Please read this guide carefully before use.

General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Ensure that the firearm is pointed in a safe direction at all times.
- Keep your finger off the trigger until you are ready to shoot.
- Store the DROPIN TRIGGER KIT in a secure location, out of reach of children and unauthorized users.
- Be aware of your surroundings and ensure a clear and safe area before using your firearm.
- Regularly inspect your trigger kit and firearm for any signs of wear or damage.
- Follow all local laws and regulations regarding firearm ownership and usage.

Specific Safety Precautions for Use

- Ensure that the DROPIN TRIGGER KIT is compatible with your Glock model before installation.
- Do not attempt to modify or alter the trigger kit in any way.
- Always wear appropriate eye and ear protection when using firearms.
- Be cautious of the trigger pull weight; the CMC trigger is designed to reduce pull weight by two pounds compared to the OEM design.
- If you experience any malfunctions or irregularities, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

Installation Instructions

1. **Safety First:** Ensure that the firearm is unloaded and pointed in a safe direction.
2. **Disassemble the Firearm:** Follow the manufacturer's instructions to disassemble your Glock.
3. **Remove the Existing Trigger:** Carefully remove the OEM trigger and associated components.
4. **Install the CMC Trigger:**
 - Insert the CMC Replacement Trigger into the trigger housing.
 - Ensure that all OEM internals, including the trigger bar and springs, are correctly positioned.
5. **Reassemble the Firearm:** Follow the manufacturer's instructions to reassemble your Glock.
6. **Function Check:** Perform a function check to ensure that the trigger operates correctly before using the firearm.

Usage Instructions

- Familiarize yourself with the new trigger's operation before using it in a live environment.
- Practice safe handling and shooting techniques at a controlled range.
- Continuously monitor the trigger's performance and be aware of any changes in functionality.

Disposal Instructions

- Dispose of the DROPIN TRIGGER KIT in accordance with local regulations for metal and firearm component disposal.

- Do not dispose of the trigger kit in regular household waste.
