

AR-15 GAS TUBES NITRIDE - CMC TRIGGERS GAS TUBE PISTOL LENGTH NITRIDE BLACK

[Rifle Parts](#) > [Gas System Parts](#) > [Gas Tubes](#)

A Durable Gas Tube That'll Keep Your AR Running Right

It's often the little elements that get overlooked in an AR-15 build, and the gas tube is one of them. It could be said that this simple tube is the unsung hero of the AR platform, because without a solid gas tube, your semi-automatic functioning goes right out the window. That's why CMC Triggers put high-quality materials in its AR-15 Nitride Gas Tubes. Each CMC Triggers AR-15 Nitride Gas Tube is machined from 304 stainless steel and, as the name implies, is treated with a nitride finish that prevents corrosion and wear. Tubes are available in pistol, carbine, mid-length, intermediate and rifle lengths, and each tube is made right here in the USA.

Attributes

- Name: [CMC TRIGGERS GAS TUBE PISTOL LENGTH NITRIDE BLACK](#)
- Manufacturer: [CMC TRIGGERS](#)
- Product no.: 207000089
- Mfr. No.: 81621
- Finish: Black Nitride
- Gas System Length: Pistol
- Material: Stainless Steel
- Weapon type: AR-15
- Delivery weight: 0.045kg
- Shipping height: 3mm
- Shipping width: 25mm
- Shipping length: 159mm
- UPC: 859464006307

Item details

Made in USA

US export classification: 0A501.x

Consumer Safety Instruction Guide for AR15 Nitride Gas Tubes

Introduction

Thank you for choosing the AR15 Nitride Gas Tube by CMC Triggers. This guide provides essential safety instructions and usage guidelines to ensure the safe operation of your gas tube. It is important to read and understand this guide before installation and use.

General Safety Guidelines

- Ensure safe use of the product by following all instructions.
- Be aware of potential hazards associated with improper installation or use.
- Always store the gas tube in a safe place, away from children and vulnerable individuals.
- Regularly check for any signs of wear or damage to the gas tube.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Always use the gas tube in accordance with the manufacturer's specifications.
- Do not attempt to modify or alter the gas tube in any way.
- Ensure that the gas tube is compatible with your AR15 build.
- Avoid exposing the gas tube to extreme temperatures or corrosive substances.
- If you notice any corrosion or wear, discontinue use immediately and consult a professional.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools for installation, including a wrench and any other required equipment.
- Ensure that the firearm is unloaded and in a safe condition before starting the installation.

2. Installation Steps

- Locate the gas block on your AR15.
- Remove the existing gas tube if applicable.
- Insert the new AR15 Nitride Gas Tube into the gas block.
- Secure the gas tube in place according to the manufacturer's instructions.
- Doublecheck all connections to ensure they are tight and secure.

3. Usage Guidelines

- After installation, perform a function check to ensure the gas system is operating correctly.
- Regularly inspect the gas tube for any signs of damage or wear.
- Follow all safety protocols when operating your AR15.

Disposal Instructions

- Dispose of the gas tube in accordance with local regulations.
- Do not dispose of the gas tube in regular household waste.
- Contact your local waste management facility for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the AR15 Nitride Gas Tube, please refer to the manufacturer's website or customer service for assistance.

By following these safety instructions, you can ensure the safe use of your AR15 Nitride Gas Tube. Thank you for your attention to safety and compliance with the EU General Product Safety Regulation.
