## Ultra-Crisp Trigger, Glass Smooth Break

Bringing a wealth of knowledge and experience from its presence in the aftermarket for AR-15 triggers, CMC Triggers entered the handgun market with a modified trigger unit for one of the world's most-popular handgun designs: the Glock. Each CMC Glock Replacement Trigger provides owners with a drop-in unit designed to instantaneously enhance the performance of their gun's trigger. The CMC Triggers Glock Replacement Trigger is a complete unit that features OEM internals, including a Glock OEM trigger bar, springs and housing. However, the design features a flat-faced trigger shoe with a hooked bottom that reduces pull weight by two pounds over the OEM design. The trigger is constructed from a combination of 8620 alloy steel and S7 tool steel and features a positive trigger reset.

### **Introduction**

Thank you for choosing the DROPIN TRIGGER KIT FOR GLOCK CMC TRIGGERS. This product is designed to enhance the performance of your Glock handgun by providing a reliable and improved trigger mechanism. To ensure your safety and the proper use of this product, please read the following safety instructions carefully.

### **General Safety Guidelines**

- Always treat your firearm as if it is loaded.
- Ensure that you are in a safe environment when handling your firearm and trigger kit.
- Store your firearm and trigger kit in a secure location, away from children and unauthorized users.
- Familiarize yourself with local laws and regulations regarding firearm modifications and usage.
- Regularly inspect your firearm and trigger kit for any signs of wear or damage.
- Use only compatible Glock models as specified for this trigger kit (Glock 43, 43X, 48).

### **Specific Safety Precautions for Use**

- Do not attempt to modify or alter the trigger kit in any way.
- Ensure that the firearm is unloaded before installation or maintenance.
- Wear appropriate safety gear, including eye protection, when handling firearms.
- Use caution when working with tools during installation to avoid injury.
- If you experience any malfunctions or issues with the trigger kit, discontinue use immediately and consult a qualified gunsmith.

### **Instructions for Installation and Usage**

#### **1. Preparation**

- Ensure that your Glock firearm is unloaded.
- Gather necessary tools: a punch tool, a small hammer, and a flat surface for installation.

#### **2. Installation Steps**

- Remove the slide from your Glock by following the manufacturer's instructions.
- Carefully remove the existing trigger assembly from the frame.
- Align the CMC Triggers Glock Replacement Trigger with the trigger bar and housing.
- Use the punch tool to gently secure the trigger assembly in place.
- Reassemble the slide onto the frame, ensuring all components are correctly aligned.

#### **3. Testing the Trigger**

- Once installed, perform a function check to ensure the trigger operates smoothly.
- Pull the trigger to verify its reset functionality.
- If the trigger does not function as expected, remove the trigger kit and consult a qualified gunsmith.

#### **4. Usage Guidelines**

- Practice safe firearm handling at all times.
- Regularly clean and maintain your trigger kit and firearm to ensure optimal performance.

- Always follow the manufacturer's instructions for your Glock firearm.

## **Disposal Instructions**

- Dispose of any packaging materials in accordance with local regulations.
- If the trigger kit becomes damaged or nonfunctional, consult a qualified gunsmith for proper disposal methods.
- Do not dispose of firearms or firearm components in regular household waste.
