## Enhanced Accuracy & Reliability

Thanks to a partnership between Brownells and CMC Triggers, now you can get this specially developed trigger as a Brownells exclusive! Called the AR-15 Tactical Trigger, this drop-in, single-stage trigger design has many of the features you're familiar with, but it has a look that you can only get from Brownells. This Brownells AR-15 Tactical Black Trigger features a flat trigger bow that enhances leverage and gives shooters more control over their trigger press. The trigger has a non-adjustable pull weight that measures in at 3.5 pounds. There's barely any take-up in the pull, and the incredibly short reset point makes it easy to make fast follow-up shots. Inside the Brownells AR-15 Tactical Trigger, the lightened hammer uses a Rocket Wire spring that enhances reliability with hard primers. The spring also provides a faster lock time, enhancing the accuracy potential of your gun. The incredible performance of this high-quality, affordable trigger is only possible through CMC Triggers' investment in all-new tooling, which reduces manufacturing time while preserving the tight tolerances found inside this unit.
